forgotten that their advent in India was solely for commercial purposes, with no thought of conquest. It still intrigues historians how a trading company, facing the rivalry of Dutch, Portuguese and French Companies, the vagaries of native Indian rulers, and the changing policies of the capricious Company authorities in Britain, laid the foundations of a great empire.

PREFACE.

CHARLES ROBERT WILSON died in England on the 24th July, 1904. At the time of his death he had in an advanced state of preparation the second part of the second volume of the Early Annuls of the English in Bengul. This second part, dealing with the Surman Embassy, has been completed and published (1911) with a preface by that distinguished scholar. the late Mr. William Irvine. There had also been printed off the whole of a third volume of the Annals, with the exception of the Introduction which had not been commenced, and the Index which remained to be compiled. There had also been printed off the first thirty-two pages of a fourth volume, and some sixty-two pages of this volume are extant in clean proof form. In regard to the almost complete Volume III, the feeling expressed by Mr. Irvine as to the Part II of Volume II has, ever since I knew of the existence of the printed sheets, been my own in regard to Volume III: "the fruit of great labour and strenuous research ought to be made available for those interested in the subject." The Government of India has most generously placed the sheets in my hands, and I feel certain that all students will be glad to have the present volume made available for their study, although, of course, it cannot be all that Dr. Wilson, had he lived, would have made it.

Dr. Wilson's Introductions were more than introductions. They were beautifully written narrative histories, and were based on much wider sources of information than those reproduced in his text. My personal feeling is that we needed to have the letters to and from Bengal and the Court before we

had the Consultations given us in either summaries or in extense The conclusion of Dr. Wilson's *Annals* will leave a gap in the history of the English in Bengal, for we have at present no published work dealing with the years between 1722 and 1756. It is my feeling, however, that the student who undertake to deal with that gap would best be left free to deal with the subject on his own lines rather than those of Dr. Wilson.

To Mr. William Foster, C.I.E., I am indebted for the portrait of Governor Feake; to Miss L. M. Anstey for the portrait o John Stackhouse and for information concerning the Feak Family; to Mr. J. P. E. Falconer for the portrait of his ancestor, Thomas Falconer.

In the first volume of the Annals, Dr. Wilson gave the current English spelling of such names as Delhi and Agra In the present volume he writes Dihlī and Agrah. He is indeed not quite consistent, as will be seen in the Indee Personally I regret the change.

I would like to conclude this preface with an expression of my own deep gratitude to its distinguished author. I enjoyed for several years the great privilege of his friendship—an association based on a taste for the studies in which have a master and hallowed by that love of holy things which i so prominent a feature in all Charles Wilson's work. In the days when I edited the Indian Church Quarterly Review Dr. Wilson was one of my most ready supporters, and the memory, not only of the aid liberally afforded to me is historical research, but in matters of religion, in which we two found ourselves united in devotion to the old paths, has made the present endeavour to rescue a part of the Annuls a work of pride and affection.

INTRODUCTION.

1. SAMUEL FRAKE BECOMES GOVERNOR.

Between the hours of six and seven of the evening of Saturday, December 28th, 1717, the Honourable Robert Hedges, Esq., President and Governor of Fort William in Bengal, departed this life. On the 12th January, 1718, the Honourable Samuel Feake, Esq., lately Chief at Cossimbazar, took his place at the Council Board, and "accordingly the Commission and keys of the Fort were handed to him." The new Governor, at the time of accession to the chair, was not more than thirty-five years of age and he had spent nearly half his life in the country, having arrived in Bengal on the 26th May, 1700.2

In the year 1707, William Bugden and Samuel Feake, under an escort from the Dīwān, had gone to Cossimbazar to obtain, if possible, a sanad for free trade at the cost of Rs. 25,000 sicca rupees.³ On April the 3rd, the news of Aurangzeb's death reached Calcutta⁴, and "the whole town and factory being thrown into confusion," the Company, to secure their settlement from attack by the neighbouring zamindars, ordered that sixty-black soldiers be taken into the Company's service, and posted round the town. Bugden and Feake were bidden "to come down at once, and bring all the Company's treasure they have, also the rupees provided for the payment of the sanad."

The late Mr. W. Irvine has told us that Mir Ja'far (Murshid Qulī Khān) was removed from the office of Dīwān of Bengal, and was not re-appointed to Bengal until the 2nd Muharram 1122 H. (March 2nd, 1710) after the assassination of Zia-ullah-Khān.⁵ In May 1715, Governor

Hedges resolved to come to close quarters with the Diwan, and to resettle the Factory at Cossimbazar. On the 23rd May, we read:—

"Mr. Addams Second in Council whose right itt is to be Chief as Cossimbazar being proposed Declares He is fully resolved to return to England by one of the next ships dispatched hence And requests that Mr. Samuel Feake, now third, in Council here (to whom he gives up his right to that Station), may ir his stead be appointed Chief of Cossimbazar, which Mr. Feake accepting of itt is Unanimously Agreed that Mr. Samuel Feake be appointed Chief of Cossimbazar Factory."

The story of Feake's endeavours at Cossimbazar is traced by Dr. Wilson in the Introduction to Part I of Vol. II of the Annals, and we will not attempt to repeat what has been said. It is enough to notice that Feake, when he took up the office of Governor, had obtained a very considerate knowledge of the ways of the Nawab Mir Ja'far (Murshid Qulī Khān.)

From the inscription on Samuel Feake's monument in Henham Church, Essex, we learn that his wife was "Anne, daughter and heir of John Hampton of Hampden of Fort St. George, Madras (relict of Captain Thomas Newland)." According to the inscription, this lady died on board the Devonshire East Indiaman on her passage to England, 10th May, 1723, aged 34. If the age given is correct, she must have been born about the year 1689. Thomas Feake, the son of Samuel Feake and Anne, his wife, was baptised on 4th June, 1714. In the year following another son, Charles, was baptised on November 1st. In 1717, 3rd July, a daughter, Anne, was baptised. There appear to be no extant Baptismal Registers for Calcutta after the entry of the baptism of Anne Feake until February 1721. On 24th September, 1721, another The Burial Register shows the Feake girl, Mary, was baptised. name of "Nathaniel, son of ye Hon'ble Samuel Feake, Governor Infant," against 14th September, 1722. According to the inscription there were two sons of the name of Thomas, one whom the inscription says "died in India, aged 6 months," and the other "Thomas Feake, Egq., Chief of Dacca in the East Indies, 7th October, 1751."

The period of Feake's governorship lasted till January 17th, 1723, when he was succeeded by John Deane. The present volume, therefore,

contains the Consultations for all but the last year of his administration. The venture of the re-opening of the Patna factory, the firm hard displayed by the stopping of Indian shipping in the river when the Faujdar at Cossimbazar proved troublesome, and the quick steps taken in regard to the misdoings of the Patna factors all seem to show that Governor Feake was a man of energy and decision of character. If it be suggested that he failed to make the best use of the advantages won by Surman's Mission, it must be remembered that the Court of Directors showed themselves unfavourable to the acquisition of territorial possessions. They grudged "the necessary charge of soldiers to protect them from or keep off insults," and, as the cost each year in the deaths of escorts sent up to Patna is proved by the burial registers to have been heavy, we cannot blame the Directors for wishing to avoid "long marches to defend our bounds." Henry Frankland, while in England in 1720, pleaded the great advantage of possessing the 38 towns, and the Directors felt inclined to have "such of them as lye on or within about two miles of the bank of the river," and a dock on the other side of the river, where "the river is not rapid there," was in their opinion desirable, but they cautiously added that this was "not to be publickly hinted at lest it alarm the Government."1

The return of the Surman Embassy from the Mughal Court had formed a triumphant ending to the life work of Robert Hedges. The story of the embassy has been told by Dr. Wilson and his Editor in the Second Part of Volume II of the Early Annals of the English in Bengal. Thanks largely to the services of Surgeon William Hamilton, the Embassy had succeeded in securing from the Emperor Farrukhsiyar nearly all their requests. They were granted freedom of trade in return for the yearly peshkāsh of three thousand rupees: their purchase of zamindari rights in the three towns was confirmed: they were to be permitted to purchase similar rights in thirty-eight other towns: their Madras rupees were exempted from discount: they were to have forty bigas of land "in any place where they may have a mind to settle factories," and the faujdars were forbidden to seize the cargo of wrecked ships or exact a "quarter part of salvage." The farmān was discreetly silent as to a free use of the Murshidabad Mint. "Most of these favours proved to be nugatory

for with the scowling countenance of the Dīwān at Murshidabad over him what native would dare to sell zamindari rights? But if the immediate gains effected by the Surman Embassy were almost nil, there is much truth in Dr. Wilson's words: "In Bengal it placed the local government [the Nawab's] technically in the wrong so long as the farmān and the orders of the Emperor were disregarded, and it consequently furnished the English with a standing quarrel which they might take up any time. This they at last did after the catastrophe of the Black Hole, and the withholding of the rights won by Surman were put forward by Lord Clive, when he broke with Siraj-ud-daulah, and entered upon the conquest of the country. The soldier completed, and more than completed, what the ambassador began."

2. GENERAL SURVEY OF POLITICAL HISTORY 1719-20.

It is now necessary to say something about the relation of the proceedings recorded in the present volume to the contemporaneous history of Indian Empire. In the Introduction to Part II, Vol. II of the Annals, Dr. Wilson has described the circumstances in which Farrukhsiyar was placed on the throne by the two Sayyad brothers, 'Abdullah-Khān and Hussain 'Ali, the weak though in some ways not an attractive character of the ill-fated Emperor, his failure (on orthodox Mughal principles) to rid himself of his far too powerful patrons, and his utterly futile patronage of their mortal foes. The story of Farrukhsiyar's miserable ending—his capture, his torture, and his death—has been told in full detail by the late Mr. William Irvine in the article on "The Later Mughals" in the Journal of the Asiatic Society of Bengal (1904). Blinded and unable by reason of his polluted state to continue reciting from memory the Quran, which he knew by heart, the dethroned Emperor wrote the lines:—

A heart is mad with wine, give it wine, It is consumed with fire, give it fire. To him who asks the state of my heart, Breathe out a sigh, give but that as reply.

On the 27th or 28th of April, 1719, the Ex-Emperor was, after a fierce struggle, strangled in his prison, the executioners, to make sure of their work, having stabbed his inanimate body. Thus perished one to whom when a boy, the son of the English-loving Prince 'Asimu-sh-shān,

¹ Annale, Vol. II, Pt. II, p. viii.

the English Factors had sent gifts of toys, and in whom, when Emperor, they had based considerable expectations.

Farrukhsiyar, on his downfall, had been succeeded on the Peacockthrone by a consumptive youth, who was proclaimed under the style and titles of Abū, I-barakāt, Sultān Shams-ud-dīn, Muhammad, Rafī'u-ddarajat, Bādshāh, Ghazi. The health of the new Emperor had been also undermined by his cult of the opium drug, and so, early in June 1719, he besought the Sayyads, who had kept him entirely under their control, to allow him to abdicate in favour of his elder brother, Rafi'u-ddaulah. The miserable lad was sent back to the harem; on the 6th of June he breathed his last. The elder brother was proclaimed as Shahiahān Sānī, or the second Shāh Jahān, but he remained a mere puppet in the hands of the two great king-makers. The attempt to give up that opium habit which had hastened his brother's death, seems to have been fatal in Rafi'u-d-daulah's case: he died in camp at Bidyapur on the 17th or 18th September, 1719. To these short-lived Emperors succeeded Prince Roshan Akhtar, a grandson of the Emperor Bāhādur Shāh: he assumed the title of Abu-l-Fath, Nāṣir-ud-dīn, Muḥammad Shāh, Bādshāh Ghazi, and reigned until the year 1748.

In May 1719 an attempt had been formed at Agrah to set up a rival Emperor. The person selected for this idea was Prince Neküsiyar, the eldest surviving son of Prince Muḥammad Akbar, the fourth son of the Emperor 'Alamgir. On August 19th the Agrah Fort surrendered, and the pretender was sent off to join the other captive princes at Salimgarh, where he died in March 1723.

In these years the drama of Mughal history moves with extraordinary rapidity. On the 8th October, 1720, the Sayyad, Husain 'Ali Khān, was assassinated. His brother, 'Abdullah Khān, thereupon, marched on Delhi, and Prince Ibrahim, a brother of the two short-lived Emperors, was brought out of prison and set up as a rival to Muḥammad Shāh. On the 13th of November the battle of Hasanpur was fought, and 'Abdullah Khān defeated and taken captive. The capture of Prince Ibrahim followed in due course. On October 11th, 1722, 'Abdullah Khān died of poison in his prison.² It is he whom Surman has described as "the good visier," and the late Mr. Irvine has described him as "remarkable for

forbearance, patience, and extreme humanity." Both of the Sayyad brothers, writes Mr Irvine, were "friendly to the poor and non-oppressive in disposition, but Husain 'Ali Khan was, in contrast to his brother, passionate and vainglorious. Brave as soldiers, they were in the acts of intrigue unable to contend with the genius in that line of Nizāml-Mulk, the veritable author of their downfall.

RE-ESTABLISHMENT OF THE PATNA FACTORY.

In their letter of the 2nd of February, 1713, the Court of Directors had given orders that the Factory at Patna was to be abolished, but it was not until January, 1715, Edward Pattlel was able to withdraw. In the present volume we shall read of the re-establishment of the Patna Factory, and the sad fate in which two old servants of the Company were involved by their misconduct of the Factory's affairs. The success of the Surman Embassy stimulated the English to attempt to obtain facilities for their trade from the new Subahdar of Bihar, Khan Zaman Bāhādur, great reliance being placed on the Imperial farmān. The post of Chief at Patna was successfully claimed by Mr. Samuel Browne² who had arrived in India, with already the rank of a Junior Merchant, on the 17th August, 1710. Hugh Barker, who as second, accompanied Browne to Patna, had arrived as a writer precisely one year later.

The papers here printed show how dangerous the voyage to Patna was as the time: the death registers to be consulted at St. John's Vestry are even more eloquent. Browne, however, prospered on his journey, "having met with great civility from Government all the way up, without any expense except a trifling present to the Phowsdar of Mungeer³ for assisting his boats to pass that Fort."4 On their arrival the Factors took possession of the "ground granted to us by the Kings Royal Phirmaund." They visited the Subahdar, who received them with great civility, and stated in open diwin that he "had forgiven the English the usual yearly Pishcash, and they might buy and sell and go on with their business without the least molestation." At the same time. however, it had to be admitted that the "Subah expects a handsome present yearly as in the time of Agent Charnock."5 From Patna the Factors are able to dispatch the latest news of the Mughal Court.

On June 25th, 1719, the Council, being ordered to reduce their number to seven. 1 recalled Browne, and appointed Edward Stephenson Chief of Patna, with Thomas Falconer as second. The journey of the newly appointed Factors was an adventurous one,2 but they arrived at Patna on the 29th of August.³ The reason given by the Council for Browne's recall had evidently been a diplomatic one. On November the 28th we get a first hint as to "the ill management of Messrs. Browne and Barker,"4 but on 8th December the Council say that they had "covered our real reasons for the removing Mr. Samuel Browne, in regard we were unwilling to slur or sully their reputations, before we had certain proofs of their dishonesty, or that they had the opportunity of endeavouring in person to defend themselves against the several charges laid to them."5 The Council's complaint against the Factors is revealed in No. 1369, and it is not necessary in this place to enter into the details. The story is evidently a bad one. pathetic is the account of the sale of Browne's personal effects. On 2nd August, 1720, the Register records the burial of Mr. Samuel Merchant. On the 11th Catherine Browne⁶ writes to the Governor: " I shall wholly surrender and give up for the use his Creditors. My low circumstances disabling me to clear any of his Debts, I do hereby sequester (being ignorant of the Law forme in these cases) everything."7 On September the 10th the Council ordered that everything belonging to the poor lady "except her wearing apparrell be disposed of and the produce divided among her creditors."8

To return to Patna—Messrs. Stephenson and Falconer were having no happy time in the position from which Browne and Barker had been removed. The farmān was held to be of no account, as it emanated from the Sayyads, "who kept the King prisoner." In No. 1456 there is reference made to a "new road," a mystery which remains for solution. On 14th July, 1720, the Council resolve to "write to Patna and severely check them for their credulousness and showing themselves terrifyed at any rumour that flyes through the Country." On 26th September, 1720,

Stephenson and Falconer are promoted to be "of Councill at this Board," but "it being necessary for one of them to return hither," Falconer is recalled to Calcutta.¹

We notice that on the 5th January, 1721, "the Great Williamson" died,² and Mr. John Stackhouse succeeds to the "vacancey at this Board." Williamson bequeathed to Falconer the sum of five thousand pounds sterling.³ Mr. John Stackhouse on 25th February, 1732, is to become President and Governor and Commander-in-Chief for the United Company, but he is to experience the bitterness of Samuel Browne's fate.⁴

4. THE HUGHLI FACTORY.

There has been much controversy in the past as to the precise nature of the transaction which was effected in the year 1698 between the Company and the Savana Majumdars whom the English regarded as "the Jimmidars" of the three towns which constitute historical Calcutta. It is, however, perfectly clear that, although the "nishaan" of 'Azīmu-sh-shān cannot now be traced, the Prince conceded to the Factors the right to purchase from the persons, rightly or wrongly described as "Jimmidars," the three towns of Calcutta, Sutanuti, and Govindpur, on the condition that they paid "the same rent to the King as the Jimmidars successively have done." As a matter of fact the three towns were part and parcel of the personal Jagir of the Subahdar of Bengal, whose haveli in the 24-Parganas was wisely placed, not at Hughli, but Havelishāh—a locality we can fix in our minds as we pass the Havelishah Railway Station on the East Bengal State Railway, between Barrackpur and Naihati. The 'bai'nāmah, or deed of purchase from the Majumdārs, dated November 9th, 1698, is preserved at the British Museum.⁵ In the records we shall find the payments of rent due on the Subahdar Ja'far Khān's Jāgīr, and the student of a later period of Anglo-Indian history will notice how these ancient facts about the Subahdar's Jagir enable us to understand the matter of the Jagir bestowed on Lord Clive.

⁴ Stackhouse was involved by the misdoings of his banyan, and was dismissed. In 1734 he sent his wife and family home. In January 1741, it is recorded "Mr. Stackhouse's debt is wholly paid:" on 28th September of that year his burial is recorded. His daughter Ann married Benjamin Walker of Southgate, Middlesex. The Stackhouses are well known in the history of the Society of Friends.

The truoulence of the Mughal officers at Hughli is an outstanding feature in the history of the times. Even some seven months after Plassey had been fought and won by the English, the Naib Faujdar at Hughli placed a guard round the Company's factory, and threatened to out down the English colours.¹

So far back as the 20th April, 1713, it had been determined that as repairs to the old house at Hughli were likely to cost more than it was worth, and as "it will be impossible to secure it from being washt away by the river," the Company "be at no further charge about it." The records given in the present volume attest the building of a new factory and the construction of a new road, but, apart from troubles with Jafar Khān's officers, we have little or no light thrown on the subject of the Hughli Factory.

5. BALLASOR FACTORY.

At Ballasor³ we find first of all as Chief or Resident Edward Page, who is succeeded on his promotion by Harry Clare, who again is succeeded by Cole. We find as Nawab at Cuttack Shuja-'u-din Muḥammad Khān, a son-in-law of Ja'far Khān. On the latter's death in 1729, Sujah Cawn, as the English called him, succeeded to the government of the three provinces of Bengal, Bihar, and Orissa. We are not told the name of the son of the Nawab of Cuttack, who as Faujdar at Ballasor, caused so much trouble. It may, perhaps, have been the future Subahdar of Bengal, Sarfarāz Khān, who was defeated and slain in battle with Alī-virdi Khān, on the 29th April, 1740.

6. CALCUTTA.

The present volume throws very little light on the history of the development of the town of Calcutta. Feake, during his time at Cossimbazar had gained credit with the Court of Directors by building a wharf "to prevent the River's encroaching further on the ground and washing away the Factory." This had only cost the Company two hundred and fifty rupees, as "by making convenient stairs for the

² Dr. Wilson gives three different spellings of this name. It is said to be a conception of Baneswar, and to be derived from a temple in the town dedicated to Mahadeo Baneswar, i.e., "Siva, the Lord of the Forest." Mention is made in the present volume of "Ballasor timbers."

Gentues to wash themselves, he prevailed on the merchants to contribute near the whole charge of it." Governor Hedges had provided a new dock at Fort William, but in the matter of expense the Directors complain that Hedges was "overseen." We hear of new roads in course of construction in the year 1720.²

The references to the Charity School are of special interest since the early history of that institution has been obscured by legends which attribute its origin either to Richard Bourchier or Amirchand, or to compensation received from the Nawab of Murshidabad for the damage done in the seige of 1756.³ In the present volume we shall find legacies bequeathed for the purpose of providing a Charity School, but it would seem that it was not till 1729 anything was done to place the school on a permanent financial basis.⁴

The only Bengal Chaplain mentioned in the present volume is the Rev. Joshua Tomlinson. For two and-a-half years following the death of Brieroliffe, in August 1717, Bengal had been without a Resident Chaplain. Tomlinson, who for several years had been Chaplain at St. Helena, arrived at Calcutta on the 23rd January, 1720 (new style), and died on the 30th May following. St. Anne's then remained without an incumbent until the 27th March, 1722, when the Rev. Joseph Paget arrived and assumed the pastoral charge. In the absence of a clergyman, Mr. Richard Harvey, Surgeon, acted as lay-reader, and received a gratuity from the Company for his labours. In 1718-19, Mr. H. Frankland was Church Warden: in 1720 William Spencer, and in 1721 John Stackhouse.

For the career of Henry Frankland the reader may be referred to biographical sketch by Dr. C. R. Wilson which has been reprinted a Bengal Past and Present Vol. In the Journal of the Asiatic Society of Sengal, Vol. LXVII, Part I, No. 1898, will be found a biographical notice of Edward Stephenson, "An unrecorded Governor of Fort William," by the same writer. Frankland died in Calcutta on the 23rd August, 1728, and Stephenson held office for little more than a single day having assumed office on the 17th September, and being superseded on the 18th by John Deane, who from 1723 to 1726 had been Governor, and now returned from England with a commission to resume his authority. It was to Stephenson, Orme resorted for information for the second volume of his history. The following inscription is cut in stone on the Church floor of Crosthwaite Parish Church:—

Edward Stephenson, Esquire, late Governor of Bengal Obt. September 7th, 1768.

It should be noticed that "Mrs." in those old records does not of necessity imply that the lady to whom the prefix is given was a married woman, it being at the time customary to place that prefix before the name of any woman of station.

The Instructions and severall papers We have brought likewise before us and read over also severall paragraphs Viz. 44 and 45 in the Generall Letter from the Court of Directors dated the 18th January 1716 to which the 62nd pare abovementioned was an Answer to Aud Coja Surhaud [Khwajah Sarhad] having in a Letter dated the [blank] Charged Mr. Surman with severall Allogations while he was at Dilly. ¹ In 1718 the moon was new on January 21. January 25 was Śri Panchami.

I wrote you last the 9th of Zithidge [Zū-l-hijjah] in perticular concerning Durbar [darbār] Affairs which without doubt you have received and well not. The Copy whereof I here enclose, The present State of Affaires stand thus, 9th Do at Night Sudder Saddool [sadru-s-sadur] spoke to the King concer our Affaires but to little purpose, His Majesty holding this opinion that his new Phirmaun [farmān] be sent to all Ports, To which the Sudder [sadru-q-sadūr] answerd that if it was sent, the Way to Mecca would be stopt, The Affaires of the Sea and Sea Ports would be ruin'd And they are very great Merchants and Worthy of Favour, The King Reply'd let the Phirmauns [farmāns] be sent to Jaffercaun [Ja'far Khān] and Hyder Coolicaun [Haidar Quli Khān] and if They Certainly know that a Quarrell will ensue, then to wave it. As for Favour what is that. I Ordered that their Doctor shoul stay here and I would make him Two or Three Thousand Munsub [mansab] and be perticularly kind to him. They would not hear but took him with them and went away. They would not please me so much. The Sudder [sadru-s-sadur] hearing the King say this, thought fitt not to present my petition least it shoud not be granted, So that He must Seal the Phirmauns [farmdns] and so All oversett: At present tis the Time of Rejoycing so no Bussiness to be done. As soon as it is over, in two or three days I shall Petition. Also the 9th at night the Vizier sent my Petition, He has wrote in his own that Cojah Surhaud [Khwājah Sarhād] the English Factor has been with him and gave a petition which comes herewith, That They are great Merchants, The Support of the Ports and worthy of Favour and have always had Esteem, I am in hopes their Petition will be granted. I went the 11th into the Duan Aam [diwdn-i-dm] and paid my Respects to the Vizier, he told me he had sent in my Petition I said I was in hopes he would be so kind as to speak to the King about it Face to Face; He answerd depend on It, and so went in and was in private with his Majesty, I also gave 2 other Azzys ['arzis] to Boguechund [Bhogchand]8 to give him within, He shew'd them the Vizier and said I have sent one in already, keep These till That comes out. The 14th in the Jeshun [jaskan]4 Zandee Caun [Ziyāu-d-Dīn Khān] spoak to Enaitulla Caun ['Ināyatullah Khān] concerning our Affaires and seemed discomposed that all the Kings Affaires should receive such Turnes, These Orders ought to have past my Books, but I know nothing of Them, with what Sense did They give at First, so soon to Alter what given and thereby disturb the Traffick of the Ports and this will be a great Occasion of Trouble, I certainly will speak to the King about it. I likewise before spoke to Hadgee Salla [Haji Sālch] the Mecca Ambassador and sent him to Enaitulla Caun ['Inayatullah Khan] so he had heard of it before.

The 9th Zu-l-hijjah 1129 H. was Sunday, the 3rd November 1717 A.D. (O.S.).

² He was made mutaquidi or Governor of Bandar Sürat in December, 1715. He was accidentally burnt to death at Dihli in April 1726,

^{*} The head clork of the khalipah. He died in March 1737.

^{&#}x27;This was the jaskan or festival for the 'Idu-s-suh which is mentioned by Mirz Muham mad in his Taskirak as having begun on the 14th Zu-l-hijjah 1129 H., that is November 8, 1717, the illuminations went on until the 20th of the month, that is November 14.

⁵ He had been appointed dinan-i-thansa in April 1717. He died in November 1725. aged 75. For his biography see Ma'annud 11, 828.

The 20th I went to the Visiers, Zaudee Caun [Ziyāu-d-Dīn Khān] was present Who spoke very Strenuously in Our behalf, The Vizier said Caun [Khan] I swear by your Head I have sent in the Petition, Zaudoo Caun [Ziyāu d-Dīn Khān] farther said tis true you have sent in the Petition, but the Phirmauns [farmans] that are going to be Scaled and dispatcht will certainly create a Quarrell. The Visier answered as soon as the Jeshun [jaskan] is over I will accommodate this business. The 3 Caundoran [Khān Dauran] said I will see Zaudee Caun [Ziyau-d-Din] and Consult him. Zaudee Caun [Ziyāu-d-Din Khān] went 2 or 3 Times but it being the time of Jeshun [jashan] I can't get them together to Consult and whenever I speak he answers in Shalla [inshā allah] after the Jeshun [jashan] and then I shall get them together without doubt. The 1st of Zithidge [Zū-1-hijjah] Caundora [Khan Dauran] wrote to Hyder Cooly Caun [Haidar Quli Khan] by Two Conveyances Concerning the Affairs of Bengall and Surat so far as relates to us to be answered in 22 days, The people are not returned but dayly expected. I have so managed Ray Creperam [Rae Kirpa Ram] that if Hyder Cooly Caun [Haidar Quli Khan] writes against us, that It shall be alter'd, He also having wrote to Suratt as he ought in our favour, Sc I expect he will return as favourable an Answer. What can I write of the Blunder[fer] Syed Sallabat Caun [Sayyad Şalâbat Khān] who is neither fish nor flesh, Who has eat 60 or 70 Thousand Rupees of the Companys and yet in this Case would never Speak once to Caundora [Khan Dauran] but when he meets me, says I have received a Letter from Mr Surman what Answer can I give, I answer what you see write, as for me I use my Endeavours. To which he says tis well, He spoak once to Caundora [Khān Dauran] something displeasing since when He dares not Speak again. God protect Cuttub. ullmulluck [Qutbu-l-mulk], Zaudee Caun [Ziyau-d-Din Khan], Enaitulla Caun ['Inayatullah Khan], Durbar Caun [Darbar Khan], Sudder Saddool [sadru-sşadür], Boguechund [Bhogehand], Ray Kirperam [Rāe Kirpā Rām] &c. Mutt. suddys [mutasaddis] Who are always ready to serve the Company, I hope in God to Effect ail. The Generall wrote from Bombay to Mr Surman to Stay at Court till all the Phirmauns [farmāns] had past. Mr Surman in Answer wrote Vist. I have Effected all my business by the Kings Favour, now Enaitulla Caun ['Inayatullah Khan] is Duan [diuan], The Case was Altered, do You [use] their Endeavours to make all pass at the Port as well as you can, that no News reach the Court, This Folly he was Guilty of to get away and so ruined the Companys Affairs You shall see by the Grace of God that Enaitulla Caun ['Ināyatullah Khan] shall accomplish every thing, Mr Surmans whole designe to get away was to go to England, I suppose the Season now serves and he A going, whilst I am forced to stay on his Account The sum of 22,000 rupees I spent for the Companys Service, He quarrelled about it and woud not pay me, I am in hopes your Hon &ce by some meanes

will gett it from him, He had another design to quarrell with me, Which was to leave me here, Tell You a fine Story and so March off, Since I am not then present to answer him, I am now to stay here so you and he knows. His Services are such as to draw Bills on you for 4 Leack [lakh] of Rupees, Where tis expended I shall come and acquaint you, fling down the business and goe away, My Services are Such, That I have not receiv'd a Cowrie but I spent 22,000 Rupees whilst Mr Surman was here and not received it, and now am spending 30,000 rupces more and do the Companys Service I have wrote how much I was in want, all I had I have Spent and flung in the dirt and pay 3 per Cent. Interest to the Merchants per Mensem, I beg on recet of this you will send 20,000 rupees and 30,000 Rupees Letters of Creditt on the Merchants here that I may get clear from this Place and be with you, If You do not, I shall use my Endeavours, but it will be 10 or 15 thousand Rupees Loss to the Company. I drew a Bill on you for 6,000 Rupees payable to Aga Jaun [Aga Janl. without doubt You have paid it, if you have not, pray do it out of hand. It is now 3 years and have not Noted any of the Company's Expence in that time in hopes to do it Viva Voce Now Mr Surman is going I am obliged to advise Mr Barker kept the Diary, In that Diary observe 7,000 Rupees of Scarlett Broad Cloth Loaden on Camells account Caundoran [Khân Dauran] you will find it if not pray ask what This is, as also 7,000 Rupees more Account Cuttbullmulluck [Qutbu-l-mulk] You will also ask how many thousand Rupees were receiv'd from Syed Sallabat Caun [Sayyad Şalābat Khān] Who received it for Mr Surman that is a going. Look before he goes, I give you only an Item at present, the Rest I shall tell you on our Meeting.

1081.-JOHN SURMAN'S PETITION.

To the Honble Samuell Feake, Esqr Governor of Fort William and

January 28th.

1 17-18.

President for Affairs of the Honble Company of
Merchants of England Trading to the East Indies

HONOUBED SIE AND SIES,

I have for some Time had a strenuous desire of Sceing my Native Country but still waited with patience Till It shou'd Please God I had finished the Grand Affair Your Honour &c? had sett me about I think I may now say and with a secrett Satisfaction that all is over, and having duely delivered in all my Accounts and Papers relating to the Negotiation I desire Leave to depart for England and that Your Honour &c? will please to give an Order to Captain Henry Glegg Commander of Ship Cardigan to receive me on board.

There are many reasons why I should not remain any Longer in India after having bore a Character so Superiour to the Post I retain in the Honble Companys Service but at present I shall only mention one Viz. That it is proper to continue the Mark [mask?] and by going Home prevent the Court and Natives from attaining to the true knowledge of my Station which They by no meanes ought to be acquainted with.

The Trouble and Fatigue that I have undergone will seem now as pleasures; if what I have acted in this Affair meet but with your Honour &c. Approbation, If I have acquitted my Self as a good Servant I must begg of your Honour &c. an Honourable Discharge and likewise a Recommendation to my Honb'e Masters at Home which is the Request of

Honb'e Sir and Sirs

Your most Obedient Humble Servant,

1083.-REPLY TO SARHAD FROM SURMAN AND STEPHENSON.

January 30th.

Mr. Surman &c. Answer to Cojah Surhauds
Letter.

TO THE HONE'S SAMUELL FEARE Esq. &c.\(^1\) Hone's Sir and Sirs.

We were in hopes we shoud not have any farther occasion of troubling your Honr &c. with Repetitions of pro and con in relation to Cojah Surhaud [Khwājah Sarhād]. Nay its certain we have acquitted our Selves in giving a perticular Account of his strange behaviour and laid his Villianies open to publick View by Two Letters apart for that Purpose. It is not unlikely but he may have had some small Notice thereof, and so by way of Returne Endeavour to palliate his own Offences by attacking us with Misbehaviour. This tis very probable has occasioned the writing of the Late Letter to your Honour &c. which pursuant to your Honr &c. Orders now lies before us to answer.

The Peice It Self is from the beginning to the Ending a Series of incoherence and Nonsence and like the Writer thro'ly false, but however to answer it We must bring it into a smaller Compass by dividing it into Parts. The First is a strange perplexed Account of Durbar [darbār] Affairs, The Second accuses John Surman for Leaving Dilly contrary to the Advice of Governor Boone, Thirdly, he gives himself the Liberty of hinting as if dishonest meanes had been

used in relation of presents as 7,000 Rs. in Scarlett Broad Cloth Accol-Caundora [Khān Daurān] and 7,000 Rs. D. to the Visier with a Slurr on receiving money from Syud Sallabatt Caun [Syyad Şalābat Khān] and Lastly an Item what more he can discover on meeting with your Honour &c? and give an Account how All the money has been expended.

We find our Selves very ready to answer these Slights for many good and just Reasons but shall mention only Two The impartiality of our Judges and the justness of our Cause before whom and by which we only desire to be Cleared, We have upon severall occasions desired that our behaviour in the whole Affair might be nicely examind into and that of Seerhauds [Sarhād's] placing our reward on the Plauditt your Honour &c. must give us in your just Judgements but not to trouble your Honour &c. further we proceed to answer in the Method above stated.

We have in severall of our Former inlarged on the Reasons of Scorhauds [Sarhād's] staying at Court and therein proved it was entirely for his own Concerns To gain a Phirmaun [farmān] from the King to be his Morchant, to go to Europe to buy Rarietys and thereby Gain a Bulwork against his Credittors. The seeming inconstancy of the Court he now makes a Plea of as if Our Honble Masters Interest kept him there not his own and accordingly gives you an Account of the Durbar [darbār] and his transactions with a Face as if he had an Order for it, and so would lay the whole Charge of his Stay there upon our Honble Masters His Prosecution of his own Affairs since our departure plainly proves We had a right Notion of his designs So the present plea is invalid and of no use and We humbly Conceive that the Account he gives of Court ought to be regarded as from an infected person Who would Lead Our Honble Masters into farther unnecessary Expences. His desire of such a Sum as 50,000 Rs. is unaccountable and nothing can answer for him but his unbounded Assurance.

The Story he tells your Hon' &c. of Gov' Boones desire of Our Stay here till he had made the Phirmauns [farmans] Currt in Suratt and the Answer thereto given is in some Measure true It was a private Letter to John Surman from Gov Boone but he did not think proper to answer it without consulting as a publick Affair and what was wrote in return was exposed to and approved of at Our board and of which your Honour &c. has a particular Account in our Consultations besides which We had full Orders from your Honour &c. Who were our Employers to leave the Court as soon as We could possibly finish our Affair And to this Time our Reason convinced us We did very right in leaving the Court and that it would have been much more for Our Masters Honour and Interest had Seerhaud [Sarhad] done so likewise, which in our opinion sufficiently confutes this his second Slurr and still serves as a reason to prove his Stay there was upon his own Account by the reason he fetches now, which He could not have when we left him. We have very good reason to believe the Notion was instill'd into Gov Boone by Seerhaud [Sarhād] himself that if possible We coud be brought to Consent to his Stay there We might supply him with money.

Thirdly, We are pretty well acquainted with Seerhand [Sarhād] yet We cannot but be Something surprised with his unaccountable peice of Impudence. We appeal to your Honour &c. to overlook our behaviour from the beginning to the End, when It will be found how we have sacrificed our own Interests to prevent even the risquing that of our Honble Masters Could we have been brought into Seerhands [Sarhād's] Villainous Intentions There would have been no Impeachment, whereas his Accusation is a certain Sign We never did, His Temptations from time to Time our Diary, Consultations and Letters largely mention and to which We must refer What he intimates of Mr Barkers Notations your Honour &c. has and will have before you, The Vackiels [vakils] had a design to be Nibbling at the Presents on pretence of Customs to receive so much per Cent but were baulked which made us cautious to see every thing of a large Value deliverd before us as we did all to the Visier, Caundors [Khān Daurān] Tuckerubcaun [Taqarrub Khān] &c. Great Ministers and We never went without Seerhaud (Sarhād) in our Company.

The Closing the Letter is as Rediculous as the rest of it and still serves to show your Honour &c. the Man He woud be doing of Mischeif but having exhausted his Stock of Lies, he pretends to raise a Jealousie of what he is able to say farther Had he any good Grounds at all to attack us without doubt your Honour &c. woud have long since heard of it. As for the Expence of the Negotiation the Presents made and bribes applied, We never had any Private Methods, Seerhaud [Sarhād] is Witness to Themall and nothing was ever done of that Nature without his Consent as will appear in our Consultation Book where Mr. Barker has duely signed for him He is Villain enough We believe to say or deny any Thing but We are Satisfied that can have no Effect since there is so good a proof as he upon the Spott.

This Letter seems to us as if design'd to arrive after the departure of John Surman for England if possible to lessen his Repute with your Hon &c. Without having an Opportunity to Clear himself We humbly Conceive that the Behaviour of Seerhaud (Sarhād) from the beginning to the End of this Negotiation has been of very pernicious Consequence and not having attain'd his Ends at all, He now grows desperate so what he alledges should be taken as from an Ottlaw or a Mad man We shall conclude referring all to the Judgment of your Janour &c.

We are

¹ Captain Henry Dallibar and Captain George Borlase as in the muster roll for June, 1715, § 929. Borlase was reappointed Lieutenant on April_7, 1715, Dallibar had commanded a company since 1713. See Vol. II, Pt. 1, § 743.

² Ensign Theo. Gammon. In the muster rolls for June 1715, § 929, Gammon is shown in Hunt's company, but from what follows later in July 1718 it must be supposed that he changed companies.

³ John Wyndham, appointed ensign April 7, 1715, § 913, appointed Gentleman at Arms, December 20, 1715, § 954.

 $^{^4}$ Captain Richard Hunt and Captain Nicholas Rowe. The latter was probably made Lieutenant in April or May 1716, \S 980.

⁵ Ensign John Goodwin. He was made an ensign, June 25th, 1716. It seems that he was at first assigned to Dallibar's company, but afterwards changed. See the notices of him in the Consultations of the 2nd and 7th July 1718.

1088.-NOTE OF DISSENT.

Mr John Surman &c. in the Negotiation at the Mogulls Court arriving here late in the Season and just in the February Srd, P.M. hurry of our business when we were getting every thing ready for dispatching our Honble Masters Ships We have not had time to examine into every Article of their Accounts distinctly as We are Orderd to do by the Honble Court of Directors in their Generall Letter to us receiv'd this Year and Mr Surman having desir'd to go for England by the Cardigan, it is Our Opinion that he ought to stay till all their Acts are throughly examin'd and adjusted, as he has been the Cheif of that Affair, before he leaves this Place as We have hitherto had only a Slight View of their Accounts for want of more Time. The first Thing that is obvious to our Sight is their Charges Extraordinary for Cloathes given in by every one of them apart, none of which being entred in their Monthly Acts before but now brought in at once We think ought not to be allowed of or passed till We know the Honble Court of Directors pleasure therein, because we shall not be willing to refund in proportion to our Sallary and allowances what may be thought extravagant or superfluously expended as They are pleased to tell us they expect from every one of us in their last Generall Letter.

Dated in Fort William the 3rd of Febry 1717-18.

1091.-ANSWER OF THE MAJORITY TO THE NOTE OF DISSENT.

Messrs. Browne, Spencer and Collett having in Consultation the 3rd Instant entred Their dissent against

Thursday, February 6th.

Mr John Surmans going for Europe We Judge it requisite to give the following Answer. The

Arrivall of the Gentlemen from Court here being late in the Season and when the dispatch of our Ships drew nigh was not any fault or occasioned by them, Mr Surman &ce taking their departure from his Imperiall Majestys Court as soon as Leave or Orders for their Journey were given and the It happened in such a Time of the Year that few expected they would proceed quite thre their Journey, The Rains being sett in, which most People judged would unavoidably have caused a Lemain at Ellabass [Allahabad] Bonnerrass [Benares] or some other place which would have occasioned a much larger Expence by reason Their Travelling Charges would not have been Ended so soon by a Considerable Time But to Their Commendation may It be spoken They continued Their Journey through the Worst of Roads and when the Greatest Rains fell.

As for not having Time to examine every Article of their Accounts Its not Mr Surman &cas fault that they have not been strictly inquired into They having been sent down Monthly in a Regular Form and Method ever since Their Departure from Patna and They Themselves arrived in November which is now near three months since,

¹ This term is explained in § 1711. It means ^c a duty paid by ledgers who pay no ground reat. ^c Fallon giver guards, livelihood.

A Time sufficient to have lookt into every Article in their Books. The greatest and only Obstacle They alledge is the Extraordinary Expenses of Cloaths which not being entred in their Monthly Accounts when brought is judged not allowable or ought not to be passed till the Honble Court of Directors are acquainted therewith, These Extraordinary Charges are not laid before us to be passed any otherwise than as the whole Expense and present of the Negotiation is, this Expense was passed in a Consultation held by those who were appointed to Negotiate and did not all along in this Grand Affair the 14th Deer where They give Their Reasons for Charging These unavoidable Expenses.

The detaining Mr Surman against his Inclinations either by force or otherwise Till We can hear from the Court of Directors is not what Our Honble Masters We presume ever designed or Order'd since no just Cause or Article of Misdemeanour has been laid against him nor do We conceive any Prejudice or Detriment can arise to the Honble Company by permitting him to take his Passage on Ship Cardigan, The Books and Transactions of every single Action being sent home (coppys of which Mr, Surman has with him) for the Hon'ble Court of Directors to examine and in case there is any Thing wrongfully transacted or any Fraud Committed he is there to answer it, his permission to go home not being a discharge.

The Management of this business has not been acted Singly by Mr Surman, if any Crime or Misdemeanor has been committed and any person can discover the Same We have taken effectual Care to have it rectified or repaid by requiring (as per last Consultation on this Affair) of Mr Stephenson to answer for all faults that shall be discoverd.

Our late Governour has been more than once heard to Commen-Mr Surman for his Care and Conduct in the Management of this Affair and We cannot without wronging our Conscience but applaud the obtaining so many Phirmauns [farmens] and perticular Favours never granted to any Nation besides by the great Mogull, The benefit of which We doubt not but will turn to Advantage of the Honble East India Company and the Glory of the English Nation in Generall.

A letter sent to Richard Eyre.

Upon information of some bales of Goods being seiz'd by the Monday Government of Hugly from some dandys May 26th. Our Vacqueel [rakil] acquaints us that he went to the phowsdar [faujdar] of Hugly and made Demand of our Goods who sent for Mirtinjee [Mrityufijaya] Chief Collector of the Kings Revenues who said there was only one bale which contained ninety two Pieces of Cossaes [khāṣas] 40 co long and 3 co broad (which by the Sortment and quantity plainly appears to be the Honble Companys we lost in a boat out from the St George) and that he had sent one Piece to the Nabob who had given Orders for them to be sold and the Produce brought to the Kings Account.

¹ The moon was new on May 19.

1139.-OPPRESSIVE PROCEEDINGS AT HUGLI.

Last night Mr Richard Eyre came down from Hugly and informs us that yesterday morning our Vacqueel (vakil) Tuesday June 17th.1 acquainted him that by Order of the Nabob Jaffer Caun [Ja'far Khān] at Muxoodavad [Maqsūdābād] the Government design'd to pull down the House we are building on the Companys Ground where the old Factory stood, forbidding us attempting any such work and before he could write a Letter to advise us thereof the Catwall [kotwal] with his guard and a great Mob entred the Compound seized the workmen and their toolls, plundering the Bannians [banya's] house of the money lodged there to defray the Charge of the building, and the Factory of what they could carry away, the perticulars he does not know being forced to fly down hither in the hurry and the Baunians [banyde] are not to be found but supposed to be taken Prisoners, the reasons for the above violence they have given in their Wacka [waqaya'], the translation whereof is as follows:

Coppy of a Warka [waqā'yā] dated the 9th of Moon Rudjeb [Rajab]. 2

Formerly at Golgaut [Gholghāt] in Hugly Mr Charnock Englishman had a Factory in the Reign of King Aurunzeeb [Aurangsēb] the aforesaid Englishman fought the Phowsdar [faujdār] and Mogulls there plundered the whole City and then burnt it and so went away to his own Country At this juncture the English of Calcutta have sent an Englishman to the aforesaid Factory to build a new Factory in form of a Fort with Brick Walls and Bullworks, the said Englishman is going forward with intent to finish it.

Signed (dushkut) [dastkhat] by the Nabob.

Take an Obligation (Moochalka) [mulchalkā].

From the Phowsdars Wackeel [faujdār's vakil].

¹ The moon was new on June 17.

² Perhaps the 9th Rajab is a mistake for the 29th Rajab, which is equivalent to the 17th June. The 9th Rajab 1130H. was Wednesday, the 28th May, 1718 A.D.

1145.—LETTER TO THE NABOR.1

Coppy of a Letter to Jaffercaun [Jaffar Khan], dated the 17th June 1718.

"The former Factory which the Company had at Hugly of ancient being broken and fallen down and carried away by water, and now there being no place for the residence of any English man who sometimes happen to go thither for which reason we sent our people to build a small house in the old Companys Factory Ground Meizza Hassen Ulla [Mirsā Aḥsānu-llah] Phowsdar [funjdār] having sent his people with the Catwall [koṭwāl] who did in a violent manner seize our Gomastahs [gumāskias], Servants, Workmen &ci beat them, bound them and carried them away and imprisoned them, plundering all our Goods and necessaries that were there, and wanted to break down the aforesaid House, We are People who have for a long continuance been honoured with Kingly favours and have obtained Royall Phirmauns [furmāns] for a free liberty of building Factorys in every Place. Such exerbitant Oppressions were never offer'd on us and we never before bore with such Oppressions, for what reason has the aforesaid Phowsdar [funjdār] so unjustly molested us, if we are so wrongfully oppressed we shall not be able to stay in this Country.

Surely some bad people has represented to you in a quite different manner the building of this house.

We hope for your Orders that we may not another time be so injuriously molested, that the Phewsdar [fanjdär] do not hinder our going forward in building that house, that we have all the Goods and necessarys which was plunder'd restored, and our People which are imprisoned released."

[banyan] of his money which he had for Expences, and every thing else that was moveable within the Walls under pretence of an Order from Jaffercaun [Jaffar Khān] to whom they had falsely wrote we were building a strong Fort. The Action was committed in a most insolent manner of going in with a number of armed men, the Mob hallowing and beating of drums and our Workmen bound heat and imprisoned, in short the insult is too great to be borne with therefore we have set a Guard at the Octogon, to stop all boates or Vessells belonging to the Moors either going or coming and are resolv'd to have Restitution of this and all the rest of our Priviledges granted to us by his Majesties Royall Phirmaun [farmān] and this you must find meanes to let Jaffer Caun [Jaffar Khān] be acquainted with.

We have wrote to Jaffercaun [Jaffar Khān] about this Affair which you must dispatch the Vacqueel [vakil] with on recet without delay the Copy thereof comes for your perusall.

If you have a quantity of Goods in your Warehouse in a readiness and you think it needfull for a reinforcement, we will send you up a party to convoy them down, that they may be with us in time for our expected Shipping.

he may be able to give the Nabob a true state of it, this good Effect
already is owing to our resolute proceeding of stopping the Passage

1148.—REPLY OF THE NABOB.

Treeday Cossimbusar, dated the 25th Do acquainting
July 1st. that the Nabob Jaffercaun [Jaffar Khān] at

Muxoodavad [Maqsūdābād] returned us an answer to our Letter

¹ See above on June 17th, \$ 1140,

about the Affront given the Honble Company at Hugly that we might build Houses to carry on our business but not Forts being contrary to the Kings Order, which was the occasion of his ordering our building at Hugly to be stopt, but if the Phowsdar [faujdar] would assure him that it was only a House meaning no Fortification he would not molest it.

They likewise advise that Durpneram [Darpanārāyan] told their Broker Contoo [Kantu] the bales of Goods we wrote about to the Nabob by Order of Consultation the 26th May last would be delivered us.

1149. - REASONS FOR SETTLING THE PATNA FACTORY.

Patna Factory-Reasons for resettling it.

Having wrote the Honble Company in the 54th and 128th Paras of our Letter last Year sent per Hannover dated Wednesday July 2nd. the 3rd December 1717 that we had some intentions to resettle Patna Factory to prevent the detaining of their Shipping for want of Salt Petre and that we might be better able to comply with their orders for that part of the Investment to be provided at that place (which is impossible to be done at Calcutta either as to the quantity or quality) could we first obtain the Sooba's Perwanna [subahdar's parwana] and the Kings Duens Sunnud [diwan's sanad] and were fully assured the extravagant demands and large sums extorted from us of late years should be so no more perticularly the yearly Pishcash [peshkash] of sixteen thousand Rupees, since when on the 27th March last we received a Letter from Roopehund [Rupeband] formerly our Vacqueel [cakil] at Patna adviseing that the Sooba Seerbulluncaun [subahdar Sarbuland Khān] our entire enemy was turned out and Syad Caun Jemma Caun [Sayyad Khān Zamān Khān] appointed Sooba [sūbahdār] in his stead. whereupon we wrote an Arzedarst ['arzidsht] or a Letter Ordering Roopehund [Rupehand] to present it to the new Soobs [subahdar] and at the same time to congratulate his accession to that dignity and request his favour for our trade at Patna according to the Priviledges granted us by the King. In Answer whereto we have receiv'd a Letter from Roopchund [Rüpchand] the 30th Ultimo enclosing the before mentioned Grants, Vis. the Subahs Perwanns [\$@hahdar's parwana] and Kings Duans Sunnud [dwan's sanad] with an Assurance that whenever we resettle that Factory we should take possession of the House lately granted us by his Majesty and the Yearly Pishcash [peshkash] of sixteen thousand Rupees should not be again demanded.

Wherefore to prevent the misfortune of last year when our Honble Masters Shipping were detained near two months purely for want of Salt Petre which did not arrive us till the 26th of January by which meanes they [? We] could not get their Ships in a readiness to receive their dispatches till the 22nd of February whereas they might and would have been cleared by the very beginning of January could we have procured their Kintelage. Upon this Consideration and farther that we may be enabled to provide what Patna peice Goods shall be Order'd on the best and cheapest terms which is not to be done unless we have our own People there, the great Customs and extortions these Country People are necessitated to comply with before they can Clear their goods and after the vast Charges in bringing the same to Calcutta through so many parts of the Government, obliges them to raise their prizes very considerably, besides their Chints generally stampt on very ordinary Cloth and not fitt for a Europe Markett.

A Duty of Two per Cent. to be paid in Pattanz.

Tis therefore Resolved that we resettle that Factory and to ease our Honble Masters of part of the Durbar [durbār] Charges of that Settlement Agreed & Order'd that all private trade do pay into their Cash there, two per Cent on the Amount of their Invoice and that the Freight of their Goods up and down be at their own expense as has ever been and shall be continued.

Mr Samuell Browne demanding that Post as next in Succession at our Board and it being carried in a Majority.

AGREED That he be Order'd Cheif of that Factory, Mr Edward Stephenson now at Ballasore second, and Mr Hugh Parker third and Mr Saml Harwood assistant and that they prepare to proceed as soon as the boats can be gott in readyness with ten Chests of treasure and a strong party of Soldiers for their Convoy, and that on their arrivall they forthwith give out Dadney [dādni] for the next years Investment of Petre; November and December being the properest season to agree for Petre on the best and cheapest terms.

1196 -OPEN HOSTILITIES WITH ANGRIA.3

We received also herewith [s.e., with the Packet from Madras] a

Thursday
Generall Letter from the Governour and Councill
September 11th. of Bombay dated the 12th of June advising that
they have been obliged to come to an open Rupture with Caunojee
Angria for his severall Insults and Hostilitys committed against them
and that they had sent some force, who had made severall inroads into
his Country with good Success, and had plundered and razed severall
of his towns, and further advise that the Des Bouverie Captain Thomas
Wotton Commander imported there the 5th of June having lost his
Passage to Persia.

1197.—CAPTAIN WOTTON LOSES HIS PASSAGE TO PERSIA.

We receiv'd likewise a Letter from Captain Thomas Wotton on board

that finding no likelyhood of gaining his passage for Persia and taking the opinion of his Officers he at last bore away for Bombay where he arrived the 5th of June.

Copy of Captain Wotton's Letter.

To the Honble Samuell Feake Esqr. Govr. &c. Councill of Fort William.

Honble Sir &c. Sira

By this apportunity I take leave to acquaint your Hon. &ct Sr. of our arrivall here in the Port (June 5th) after a tedious and most troublesome passage in endeavouring to gain our passage to our designed Port of Gombroon.

I advised your Honr &c. Srs by the Heathcot whom we mett in 4d. 30m. So Lattd. and about 2d. W. of the S. E. part of Zeloan after which we had indifferent winds with which we stood to the W. ward so as by our Accounts to be very near the thas Irmanoes Islands and notwithstanding I beleive your Honra. &c. Srs will allowthat we were then in a very good Meridian to gain our Passage and to stand to the No. ward, yet I being willing to have the advantage of a very frank wind would have kept more W.ly but the winds took us W.ly and in the S.W. board, which bliged us to hall to the No. ward and when we drow near the Aquinochial we had he winds often to the No. ward of the W. (with very uncertain weather with which winds we severall times tackt, and stood to the S. W. after which finding the wad and weather variable thought it might be owing to our being near the Aquitochial as is common in most parts of the Globe We stood to the No ward greatlyin expectation of the wind and weather favouring us instead of which we found the reverse insomuch that from near the Aquinochial to about 13d. N. Lattid. we lad mostly hard Gales W.ly and often to the No ward of the W. with most tempetuous gusts in hard Squalls, as also a great Sea W.ly and to the No. ward of he Wt. which made our Ship labour and plunge very deep and oft put us by peat part and sometimes the greatest part of our Sails, from which Lattd. we lipt close upon a wind with fresh gales and a considerable Sea. from the W. ward nto the Lattd. of about 28d. 80m. N. m which I have formerly found Cape Resalute to lie, at which time I made 27d. 57m. W. my Cheif mate 30d. 2m. W. and m 3nd. mate 28d. 15m. W. from the S.E. part of Zeloan, notwithstanding whic' saw no Land and by the great Sea and our Variation had no reason to believe were so near as to beat up to Windward so as to make the said Cape, so that thought, as it was also the opinion of my Officers it was most proper to bet away for this Port.

At our Arriva here we found our Agent the Worp¹¹. Arthur Beavis, who thought it most paper to make his escape claudestinely on Account the Warrs between the Persas and Arrabs, the perticulars of which your Honr. &ct Sirs will have from the Government here Who are capable to give you a more perfect Account.

I should be verigled if this opportunity afforded me a Conveyance for a Letter to our Honble. Makers to be sent by the first Ship your Honr. &cot Sirs dispatch for Europe, but at will not I doubt not but your Honr. &cot Sirs will please to inform them of o Ship.

I am not as yet acquainted from the Government here what their Intentions are relateing to any thing of the Affairs of Persia so conclude as with all respect I am

Honble Sir and Sirs
Your most obedient Humble Servant,
Thomas Wotton.

1235. -- WRECK OF THE SUCCESS.

This day we received a Generall Letter from the Governour and Councill of Fort St George dated the 6th of Wednesday, December 24th. October last which came upon the Harrison P.M. a Country Ship, wherein they advise that the Honble Companys Ship Success being dispatched the 19th of September, she sailed out of Madrass Road the 21st in the morning early, about midnight of the same day, being by computation thirty leagues distance to the South East going to try the pump which had been sounded about two hours before, and then had no more than five inches water, They found to their very great surprise five foot water in the Well and the Pumps all choaked, in less than a hour after the water had gained upon them two foot more, and the Ship was brought down with her Leegunhill under water, to ease her they hoisted out the longboat and cut away the Leeboome, as soon as the Longboat was over the side above twenty of the Ships Company jumped into her and cutt her loose every body expecting the Ship would go down in a few minuetts, the Captain afterwards gott over the quarter into the Longboat, there remained about thirty persons on board the Ship which still made fresh way through the water her head to the Westward they having before made a tack to the land, the wind at South, the People remaining in the Ship endeavoured to lighten her as fast as possible by cutting the anchors from the Bows and throwing every thing overboard they could come at, and by baling, not being able to work any of the pumps which were all cheaked with pepper, about seven the next morning the Ship came on Shore at a Place called Trivebore four Leagues to the Southward of Madrass, they immediately dispatched a Ship and Sloop with severall country boates and a sufficient number of Soldiers with necessaries for encamping on the Shore to preserve the ships loading, the ship law so unhappily between two surfs which were continually breaking over that twas impossible to worke on her, the third day she brake to peices, and the bales floated, but instead of coming on shore near the wreck, they were driven to the northward by the Current, so that they were obliged to secure the Coast without as well as within their bounds to the extent of about thirty miles, by which and by the assistance of Divers they have recovered above half the Cargo, the Captain and Officers and all the Ships Company are saved.

1258 .- SALE OF SEVENTY-NINE BALES OF GURRAHS.

February 12th.

Tebruary 12th.

Tebruary 12th.

The eighty nine bales of Gurrahs [garhas] remaining in the Godowns which he can dispose off to a Ship now bound to Mannilla for twelve per Cent Advance on their Cost as prized by us in the Honbie Companys Cotta [kotha] [warehouse] which is twelve months Interest. Taking into Consideration the badness of that Cloth this Year occasioned by the scarcity and extravagant price of Cotton and that Our Honbie Masters Shipping being all dispatcht for Europe and this being the very first of the Season for to bespeake the full quantity Ordered for our ensueing Investment which will be fresh Goods and in all probability much better made by the promising Orop of Cotton which is now on the Ground.

Agreed that he dispose of them at that price for ready money, this being an apparent Advantage to the Company and bring the Account perticulars next Consultation day.

1259.—SETTLEMENT OF THE DISPUTES BETWEEN FORT St. GEORGE AND THE COUNTRY GOVERNMENT.

Received a Generall Letter from the Gevernour and Councill of

Monday,
February 16th.

To hand the 13th Instant by Brigantine Success
Richard Wallis Master wherein they advise that their Brigantine
Success Samuell Simpson Master on which was sent six hundred

about ten leagues to the Northward of Armigon and farther

advise that they have at last carried their point in dispute with the Country Government having good peaceable possession of the Townes.

1260.-REMITTANCE OF Rs. 60,000 TO PATNA.

By a Letter received last night from Mess. Browne and Barker dated the 3rd instant inclosing their Charges February 16th. Generall and Cash Account for the month of December They advise they are in great want of money to advance the Petre Assammeys [asamis] and to carry on the other part of their Investment Ordered at that Settlement. To prevent the great Article of Interest and that they may meet with no disappointment in securing the full quantity of Salt Petre Ordered.

Agreed that Wee remitt them sixty thousand Sicca Rupees which is Wee think a sufficient Sum to intrust with the Shrofts [sarrāfs] till wee hear these Bills are complyed with and that wee now advise them Wee shall send a full supply by Mr Edward Stephenson who will proceed to that Residency as soon as the waters rise and he can go with safety but if they should be necessitated for more money before his arrivall that they draw bills on us here which Method Wee approve of best as It not only cutts of that eating Article of Interest but likewise prevents the hazard the Honble Company may possibly run of Shrofts [sarrāfs] failing and their Bills not being duely honoured.

ORDERED That the Broker do immediately send to Hugly to procure Bills of Exchange for the Sume Ordered for Patna on the best terms he can and that he be carefull the Shrofts [sarrafe] are substantiall and Men of Creditt.

1264.-STRONG MEASURES AGAINST RAMABHADRA.

Letter from Captain Nicholas Rowe and Ensign Gulielmus "relateing to Rambudder Jemendar" read in Consultation.

To the Houble Samuell Feare Esq. President and Governour of Fort March 3rd. William &ct. Councill.

Honble Sin & Sins,

Lest night I lay two miles without the Companys Bounds and next morning by Gun fire I marched over the Creek into Rambudders [Rāmabhadra] Country and arrived there about eight of the Clock in the morning where I made demand of the Honble Companys Tenants and likewise the Prisoners but was denied them, Rambudder [Rāmabhadra] and his Country I found in Arms against us, upon which I sent the Bramine [Brekenes] to make demand of the Honble Companys Tenants and Guyrām [Jairāma] our Debtor, but could get nothing of him, the Report was (which encouraged his men to fall on us) that he did not value sixty Soldiers & thirty Buxerys [Bakeerie] (our black Gunmen) and about an hear afterwards I saw them in three bodys very nigh a thousand men with Drum beating & country trumpetts sounding to raise his Country, & about nine aclock he engaged me & held till two in the afternoon, they firing at me first, whereupon I sent the few horse I had to view them & they

wounded two of them before I fired with that I followed my Driver. He begun but I hope I have made an end, and let him see what every Soldiers could do, for by report afterwards I killed a great me what were burnt in their Houses. But the water thereabouts being very bad for the men, am now marched in the Plain where I intend to lye this Night if God willing, having no more to add. We are

1265.—IMPRISONMENT OF KING FARRUKHSIYAR.

About twelve of the Clock last Night arrived a short Letter from Mr. Hugh Barker at Patna, dated the March 10th.¹ 2nd Instant advising that the late King Furruckseer [Farrukhsiyar] was close imprisoned and after concluding his Letter adds in a Postcript that the foregoing News was again confirmed and that Ruffulcudders [Rafi'u-l-qadr's] Son, called Sha-doula [Shāh Daulah] was seated on the Throne² but as yet wee have no farther perticulars by what meanes the King was dethroned, but suppose it to be Vizier Abdulla Cawn [Abdu-llah-Khān] who has for some time been disgusted and is Prime Minister and the most powerfull Man in the Kingdom.

This Vizzier being a declared Enemy to Jaffercawn [Jaffar Khān] the present Subah [sābahdār] of Bengall gives us sufficient reason to believe he must share the fate of his Master the late King which has been already aimed at by Orders sent to invite him to Court with promises of greater preferment but He being throughly sensible of the Treachery designed against him, has as often found Excuses for his staying in Bengall, & tis the generall Opinion of all Persons that he will defend himself where he now is till he is out off, wherefore

AGREED That We immediately write to Mr John Deane &co at Cossimbusar that he keep a strict Guard in the Factory and that he not only forbear giving out more Dainey [dadn!] but that he take the best and properest measures he can to secure what already deliverd. Likewise a Letter to Mr Harry Clare at Ballasore to caution him of the same.

¹ The moon was new on March 10.

² Raft'u-d-darajit was raised to the throne on the 8th Raht'II 1181 H., that is, Tuesday, the 17th February, 1719 O.S. He was the second son of Raft'u-l-qadr, Raft'u-shaka, fifth son of the comparer Shith 'Alam, Bahlidur Shith.

In consideration of Our present disturbance with the Jemendar

Bambudder [saminder Rāmabhadra] who still continues to increase his force and threatens with a great deal of Insolence to be farther troublesome & not knowing what Encouragement he may have at this Juncture if there should be any Rupture in the Government in these parts—

AGREED That we entertain what Straglers of Christian people Wee can meet with to ease our own Military who are and have been for some days all on constant Duty and frequent skirmishes at severall parts on the extent of our Bounds as also to strengthen the Garrison till the Country is again setled in peace and quietness and that the Cheif Buxery [baksari] ontertain forty more black Gunmen to prevent our Inhabitants of the out Skirts of the Town being plundered.

1207 .- OUT GUARDS TO BE CONTINUED.

According to an Order of Consultation of the 2nd Instant wherein are our Reasons entred for sending out against March 12th. Rambudder [Ramabhadra] a Neighbouring. Refractory and Insolent Jemendar [samindar], Wee received a Letter dated the 3rd instant from Captain Nicholas Rowe and his Ensigne John Gulielmus with a breif Account how he ingaged them which is entred after the Consultation of the 5th Instant. Wee having severall times since repelled them and destroyed a great number of their People and burnt their Villages which has at length obliged him to begg for Peace on any terms, on which Wee first demanded our Renter of the Buzzar who is indebted to the Honble Company and all our Tenants that had been imprisoned by him during this dispute to be brought and deliverd us here by his own People and then he to discharge all his forces he had entertained against us. Accordingly he yesterday sent ns the Debtor. Wee first demanded as likewise all our Tenants he had seized on, and promises forthwith to disperse all his people. Wee make no doubt, but this good Effect will be a warning to other Jemendars [samindars] not only to refuse Protection to any of our Tenants but also deliver them up to us when demanded & giving our merchants civil usage in their Territorys,

AGREED That our outguards be continued a few days longer till the Jemendar [samtader] fullfill his Promise of dispersing his Forces, and Wee have farther particulars of the late Kings Imprisonment and the Country settled in peace and quietness under the King now said to be sett on the Throna.

1273.-GOODS TO BE CONTRACTED FOR.

We haveing for this full month past deferr'd giving out

Monday, our Dadney [dadni] on the Assurance our

April 6th. Broker Harry Naut [Harināth] frequently
gave us hopes that Severall Merchants who had Goods remaining
in their Warehouses would dispose of them in Barter for Broad
Cloth which our Ordering a new Investment might prevent, and the
Vending that Commodity being our dayly Concern made us willing
to Embrace all Offers for getting off the Same; but we find his
promises to be trifling and not to be depended on, and it being
now the Season for giving out our new Dadney [dadni].

AGREED That we Contract for Goods agreeable to the last List receiv'd from the Honble Court of Directors per Heathcote

having regard to what goods may be allready packt up in the Warehouse.

ORDERED That a List for this Years Investment be prepared by the Export Warehouse keeper with all Convenient Spead & laid before this board.

1276.—VARANASI SETH MADE BROKER.

It being now full late in the Season for our giving out Dadney [dadni] which we have for some Time deferr'd for Tuesday, Reasons enter'd in Consultation of the 6th Instant April 14th. and our present Broker Harrinaut [Harinath] being a man altogether Incapacitated for the post he is in, as we have more particularly advised our Honbio Masters in the 57, 58, 59 Paragraphs of our Letter per Ships Mary, Heathcote & Grantham dated the 6th of December 1718, It is unanimously agreed to be highly requisite to remove him, and has been a Cousideration of many days to find out the most proper person amongst our merchants to fix in his Station, before we make our new Contract for this ensuing Year, and none can be propos'd as a Capable Man who is disengaged from the Government, and entirely depending on our Protections, but the Seats [Seth's] Family who are indeed our most Secure Merchants and Yearly take great Share of our Dadney [dadni] not less in our Late Governour Hedges's Time than before, who we are all assured for no other Reasons, than wrong Informations, some Secrett Jealousy, or rather to promote his own Servant: gave the Honble Company Such a Character of this Family in Generall as obliged us, on receipt of their Letter by the Mary dated the 12 January 1714 to then Consent to his being displaced least our Masters Should think us deserving of the most unjust Calumny our late Governour had wrote against some of us whereas they in Para: 46 & 48 severely write the Broker was upheld against the President and that the Merchants were intimidated from bringing Goods into the Warehouses by the Brokers relations & Favourites, all which must be an answer to our late Governours private writing, and what we must affirm was purely his own Invention, & out of meer prejudice at that juncture, as afterwards plainly appeared by entrusting Barnassessat [Varanasi Seth] only with the management of all his own private dealings untill his Death; The reviewing of those Paragraphs wherein your Honours Show your great dislike to the then Broker, are Sufficient to prevent our entertaining any of the Family could it be avoided without the Greatest disappointment to your affairs with which we are entrusted, but as the Distance is too great for your Honours to Come immediately at the Truth, when any Charge is laid by Secret Writting, se we shall Endeavour & hope to give the most evident & Satisfactory proof, by the prizes of our Investment and & the good Dispatch of our Ships, that your Honours Interest is Sincorely the heigth of our

Ambition & that none of us are or Can be byass'd to act or Consent to any thing but what Shall directly appear to be for your Advantage.

There are some Gentlemen gone home as Sir Robert Nightingale. Mr Abraham Addams, & this last year Mr Henry Frankland who was of this opinion (as your Honours will observe in our late Generall Letter) when he was present, we humbly begg your Honours would enquire of those Gentlemen who have been very well Experienc'd in your service and Thoroughly acquainted with both these two men Barnasseseat [Vārānasī Seth] and Harrinaut [Harinath] which they deem best qualified to Serve you in the Station of Broker or whither They judge the best Capacitated for it, and least your Honours Should think it improper he should be interest'd in prizing his own goods, we possitively order that neither he nor his Son have any dadney [dadni] given them or that he neither directly or Indirectly provide any Goods for the Honble Company either in his own Name or any other Persons whatsoever, as for the rest of the family they have been this two years Seperated and each man acts for himself endeavouring to outvey one the other as any merchants whatever and we must beg leave to assure your Honours that our Care Shall be Such in prizing your Investment & lowering the prizes of all goods, that we judge it your Interest to encourage all persons that bring in the best Cloth and they are Generally those who have most influence over the Weavers, which must be men of Substance & Creditt.

1279.-MADRAS LETTER AND ST HELLENA PACKET.

Last night receiv'd a Generall Letter from Fort St. George dated the 19th Ultimo per the London a Country Tuesday, Ship wherein they advise us of the arrivall of April 16th. Ship Queen with them the 10th of February from the West coast, but being sickly and much in want of refreshment they found it not possible to dispatch her before 'twas too late altho' they had by them above three Thousand bales, they likewise forwarded to us a packett from St. Hellens that came Via Bencoolen, that advise the Severall Ships that had touch'd at that Island and a List of what necessarys they are most in want off; by their answer to what wrote them about the Broad Cloth Tents sent us by our Honble Masters we find they are at the same loss as we, and have as little hopes of the disposall of theirs, having fitted one up for Show which are very much admired but none will harken to the price and are of the same opinion with us, must lye by unless wanted for a present to the great Mogull himself or some of his prime Ministers.

⁴ See below § 1340.

This is not in the Consultation Book, but was found amongst the Miscellanious Letters Received, 1719, at the India Office.

[•] The coin, says Mr. Irvine, bore the words :

On gold was struck the stamp of the Lord of the Fortunate Conjunctions, the emperor Nakūsiyar, a second Taimūr.' (Khīrī Khān, II, 825)

Butt was begun by one Mittersein [Mitr Sen] a Bramin, who calculated the Lucky Minute: and whom Neekosheer [Nekūsīyar] made 5000 Munsub [maneab] Advancing ye Kiladar [qila'hdār] off Agra afterwards to the Same degree.

The manner was as follows:-

"The Prince being taken out off Prison; was brought just without ye Fort-Gate; & then returning back; Seated on the throne, He distributed many thousand Rupees Charity: and many Omrahs [umarās] and Muntsu!:dars [manṣabdārs] off his interest came and made their appearance. The King sent and Summon'd the Subah [sūbahdār] Syud Gyrut Caun [Sayyad Ghairat Khān] to appear: But he refusing The Fort Cannon were immediately discharged in his house: which being florced to leave, and after a warm engrepement, He retired with a very few Horse to wards Dilly.

Advices from Dilly tell us that Omeer-al Omrah [Amīru-l-wmarā. i.e., Husain 'Alī Khān] is marched two days journey towards Agra: So yt iff Ho ffinds his Competitors eager as himself: there must Shortly ensue a very warm battle. Many believe ye Other side is nott in Such haste; who though already amounting to more than 60000 horse Expect farther enforcement from Seerbulund Caun [Sarbuland Khān] Chivileram [Chhabēlah Ram] & Sundry disgusted Omrahs [wmarās]. Delays must prove very destructive to the Generall Affairs off this Kingdom.

We hear Our Nabob Caunzumma Bahauder [Khān Zamān, Bahādur, governor of Bahār at Patnah] (altho' himself has not yet declared itt) has reed [an] Order & Husbul Hoocum [hasbu-l-hukm] of Encouragement From ye new King Neeko-sheer [Nekūsīyar]. He promises to keep great order in this City. Butt know nott how soon the Event off a battle, or any other turn may induce him to break his word; or suffer others to make a prey off itt.

The governor of the Agrah provinces Chairat Khān, nophew of the two Sayyads, did cortainly quit his mansion just opposite the fort, when the fort guns began to knock it about his ears. Far from retreating, however, he stood his ground manfully, and succeeded in preventing the disturbance passing beyond the fort walls. Husain 'Ali Khan did not be in his march towards Agrah u util the 12th June 1719 Q.S.'

¹ Mr. Irvine notes as follow on these events :-

^{&#}x27;The outbreak at Agrah fort began on the 18th May 1719 N S. 7th May O.S.; and next day Nekûsiyar was shown to the people from the top of the fort gate, with a royal, i.e., red umbrella over his head. Nekūsiyar, third but eldest surviving son of prince Akbar (fourth son of 'Alamgir, born 21st September 1657 N S., died at Mashhad, 31st March 1706 N.S.), was born on the 4th December 1679 N.S., and since the early part of the year 1681 had been a prisoner in Agrah fort. Mitr Sen, Brahman, his private servant, had gained over the garrison. The malcontent nobles, Nigamu-l mulk, Rajah Jai Singh Sawae, and Chhabilah Ram, Nagar, governor of Allahabad, were supposed to be ready to take Neküsiyar's side. Nigam-ulmulk, then in his government of Malwah, procrastinated as usual and waited to see "which way the cat jumped"; Chhabilah Ram became entangled in a zamindari rising at Kalpi, engineered by Muhammad Khan, Bangash, in the interests of the Sayyads. Jai Singh, Sawze, who was not much of a soldier, did certainly move out of his capital Amber. ready to do or die, he and his men clad in saffron raiment with bridal garlands on their heads, having made a dying gift of his capital city in punyu-dam to the Brahmans. He hovered about within his own frontier without venturing on an advance to the relief of Agrah Deprived of all outside aid, the rising was doomed to failure.

We cannot possibly declare our Honble Masters Effects out off danger: 'tho' our utmost endeavours shall not be wanting ffor their preservation. In the mean time most off our Petre & many other Goods are abroad: where you Rebell Jemidars [zamīndāri] have great enticement: according to yo late account we have given yor Honbush & off them.

We believed itt necessary to advise yo boates (iff possibly on their way) off this accident, As any ffarther advices arrive, we Shall be puntuall in transmitting ym to yor Honr &ca Endeavouring likewise to Secure our Factorys ffrom theiring.

¹ The indisposition, says Mr. Irvine, must have been very slight, for 'Abdu-llah Khun marched from Dilhi, with the new emperor, on the 4th July 1719 O.S.

Order'd That Mr Thomas Coales translate the same Waccas [waqā'yās] & that the particulars be entred after this consultation.

Copy of a Wacka [waqā'yā] receiv'd from Cossimbuzar.

Hussein Ally Cawn [Ḥusain 'Alī Khān] with all his Forces encountred Raja Jasing [Jaisimha] with all his Forces and engaged; both Armys fought very briskly and kill'd a Vast number of People both sides Ramchund [Rām Chand] (Raja Jasings Duan) [Jaisimha's dīwan] was wounded and Hussein Ally Cawn [Ḥusain 'Alī Khān] with his Forces retreated to Dira Garden where they had before encamp'd but they were so warmly pursued by the Victors that they were not able to keep their Ground but were forced to fly towards Dilly.

All the whole army of Raja Jasing [Jaisimha] were dressed in Yellow which signifies that they all resolve to Dye in the feild of Battle or else to Conquer.

It is said that the Raja of Badoria [Bhadauriyah] with all his forces join'd Raja Jasing [Jaisimha] when he gave Battle also Raja Jaut [Jāt] with all his Forces; And Severall of the Omrahs [umarā] who were with Hussein Ally Cawn [Husain 'Alī Khān] after the Expulsion came over to Raja Jasing [Jaisimha].

Our Investment being very large this Season and the Treasure

Monday, being come on shore from Ships Cadegan & Dawson Agreed we do without further delay give our Merchants what Dadney [dadni] remains due to them on

¹ Mr. Irvine points out that this news-letter is singularly inaccurate. The Agrah garrison never made even a sortie, and Jai Singh, Sawie, as already noted, was never nearer to the imporial army than sixty or seventy miles' distance. There never was any such battle, nor did the Bhadauriyah Rājah declare himself in the way stated. "Raja Jaut," presumably meant for Rājah Churāman, Jīt, was an activo commander under the Sayyada, during the investment of Agrah. The fort surrendered on the 1st August 1719 O.S. "Dira Garden" is the Bāgh-i-dakr-ārā, the World-adorning Garden, otherwise the Nar Mancil, because the Emperor Nūru-d-din, Jahāngir, had once camped there. It lay three miles south of the Fort, and the site is now within Agrah cantonments. It was noted for its "well of the 52 water-bags," bdwan-lāo bi kāa."

Hundred fifty nine Thousand nine Hundred eighty one Rupees, one anae, more than already given them and we hourly Considering all means and opportunitys of disposing of our Woolen Manufactory we have for some days attempted by the Instigation of our Broker to perswade our Merchants to take a small part off our Hands Account Dadney [dadni] which this morning he informs they shew the utmost unwillingness to by their obstinate and possitive refusalls of complying, however desires we would Summons the Merchants before this board beleiving our possitive orders to him in their Presence may awe them into a Compliance for some part which if but at 5 per Cent on their whole Dadney [dadni] will take off 1934 Peices of ordinary broad Cloth.

We having accordingly summonsed the Merchants after many fair and perswasive arguments used with them to little or no purpose, we dispatch'd them first resolutely telling the Broker that we insisted on their taking ten per Cent on broad Cloth by which means after a long private Conference with them he brought them to agree for Five per Cent in ordinary Broad Cloth at the prizes we now sell that Commodity att.

We observe Your Honours Remarks that by Selling it to Severall hands will lower the price.

But we further Consider how we are often obliged to sell to our little Merchants in Barter for goods who too often are obliged to dispose of it the at Less to procure Cash wherefore we judge this much the best method of putting it off to our Dadney [dādnī] Merchants who are all Substantiall Men and able to keep it till a Markett offers and who by our advice have now appointed one person as Factor for them all whose business is to sell the whole or any part at Opportunity offers keeping up the Current price which effectually prevents the Evill we apprehend of Selling small parcells.

We have yet a farther motive as our stock is much too small for our Investment orderd by the Honble Court of Directors and as there are much more Tonage likely to fall on our hands than our Honble Masters at home designed, we must of Necessity have supply'd that Deficiency with taking money at Interest which is a heavy Article and never to be made use of when any means can be found to avoid it.

Last night receiv'd a Letter from Mr. Harry Clare at Ballasore, dated the 8th Instant advising of the arrivall of Ship Thursday, September 17th. The Charles lost all her Anchors except one and the Cossimbusar only rid it out with Loss of but one Anchor, the Sloops have all lost their boats & some of them threw their Guns and Chests of Cloaths over board.

1347.-QUIETUDE IN PERSIA.

Just now arrived Captain Thomas Wotton Commander of Ship

Des Bouverie who brought us a Generall Letter
from the Right Worshipfull James Peachy Agent
Cot Councill of Persia dated the 25th of June last wherein they
advise us the affairs of our Honble Masters there are at Present
in much Quietude, which they flatter themselves have a Prospect of
some Continuance by the arrivall of four Portugueze Ships of Warr
at Cong to the assistance of the Persians, which probably will occasion
the latter to be less pressing & solicitous about the use of our
Ships the refusall of which was the Source of the late Troubles &
impediments to their affairs which now run on in the Usuall Channell.

The Wine not being Very good, they have only ventured to send fifty Chests.

1848 .- THE BOUVERIE TO GO STRAIGHT HOME AND NOT TO MADRAS.

In the Generall Letter from Fort St George, dated 31st August

Monday, October 19th. them on the London) sufficient Kintledge of

Salt Petre for one Ship which they earnestly request may be the

King William who they desire may be laden with Grain and Stores
for their Presidency from whence they purpose to dispatch her in

December fully laden for Europe.

They further advise that they shall expect the Bourerie or another Ship half laden from us to be dispatched by them the latter end of January, considering the long time the Bouverie has been out and as she has layn all the Heats in Gombroon Read and as we judge the weakest Ship now with us we think it much more for the safety of our Honble Masters Estates to dispatch her directly from hence next after the Prince firederick which we doubt not to do some time in December so that she may arrive a Summer Ship & avoid the Hazard of being a late Ship from Madrass, The Oadogan we purpose to dispatch by the last of January and send the Dausonne partly laden from hence by the last of December to be fill'd up by the Gentlemen at Fort St George and dispatch'd then directly for Great Brittain.

1849.—ARRANGEMENT OF PROPOSED SAILINGS.

The Honble Companys Ships being now all arrived from Fort St George and we taking it into Consideration what to dispatch directly for Europe and what to be fill'd up from Madrass. AGREED as follows -

The Prince firederick, Desbouverie & Cadogan directly home.

The King William & Dawsonne with what Number of Bales we can conveniently spare and fill'd up with Grain and Stores for Madraes to be dispatched from thence.

that he would deferr our proceeding on that Affair for two or three days, wherefore—

AGREED we delay it till next Consultation day that the Gentlemen may offer what they can in their own Defence.

1369. - BROWNE AND BARKER DISMISSED THE SERVICE.

We having severall just reasons to Suspect the ill Success in the resettlement of Patna, proceeded in great measure from the mismanagement or worse of Messrs Samuell Browne and Hugh Barker as well in relation to our Honble Masters affairs, as to the private traders, Who all in generall too justly complained, how great sufferers they had been the last Season, and the unfairness of their Accounts for which they could not [? persuade] those Gentlemen to make any Satisfaction, in so much that none would trade or trust them with any further Consignment; Consequently we could not judge such men fitt to be trusted with our Honble Masters Affairs, which we nor none elee would trust with their own.

For the aforesaid Reasons it was unanimously agreed by this board to Shift hands, as per Consultation of the 25th June last, wherein we covered our real Reasons for the removing M^r Samuell Browne, in regard we were unwilling to Slurr or Sully their Reputation, before we had Certain proofs of their Dishonesty or that they had the opportunity of endeavouring in person to defend themselves against the Severall Charges laid to them.

¹ The third portion of the third instalment of rent was paid on February 9, 1720.

The 25th July Messrs. Edward Stephenson and Thomas Falconer who were orderd to Succeed Messrs. Browne and Barker left this place, and the 5th of August came to hand a Letter from Patna dated the 28th July wherein they prepare us for a heavy Durbar charge with an Account of Rogoo Punditt [Raghū pandit] their Futtus [Fatūhā] Gomasta [gumāshtāh] being seized by the Nabob and a Demand made for no less than fifty Thousand Rupees in lieu of twenty Years Customs which said Rogoo [Raghū] Punditt [pandit] had cheated the Kiugs Government of.

Again in their Letter of the 15th August which came to hand the 12th September they tell us of the hard usage & unjust imprisonment of said Rogoo [Raghū] Ponditt [panilit] met with for 25 Days the Nabob demanding unreasonable Sums for his releasement.

Their Letter of the 23rd September came to hand the 6th October enclosing their Cash Accounts & Charges Generall for the months of July & August in the latter of which to our great Surprize we found five thousand Siccaes charged for Clearing said Rogoo [Raghū] Ponditt [pandit] with a Paragraph of pretended Excuses for the Nabobs imposition not at all Consistant with their former Letter where they lay the Stress of Rogoo [Raghū] Ponditts [pandit's] having defrauded the King of his Customs but now only plead the Nabobs demand of Two Thousand Rupees for a Mismanny [mesbānī] & further extortion for his protection during this Interregnum.

Taking into Consideration the inconsistancy of Messrs. Browne and Barkers Letters and perusing their Cash Account for the month of August where they had Charged five thousand Siccae Rupees barely for the releasement of a black fellow from prison we immediately Agreed in Consultation of the 8th of October to write a Letter to Messrs. Samuell Browne and Edward Stephenson and Thomas Falconer the then appointed Councill at Patna ordering them to make enquiry into and give us an Account of what necessity there was that our Honbie Masters should pay such a sum as five thousand Rupees for the clearance of a Gomasta [gumdshtah] or Black Servant. Our Letter Bearing date the 12th October with Messrs. Stephenson and Falconers Answer (Messrs. Browne and Barker leaving the place two days before our Letter arrived them) is entred after this

¹ Merbens, money to provide a banquet or entertainment.

Consultation by which your Honours may please to observe the unjustness of the 5,000 Rupees Sicca being Charged to your Honours Accounts as also Severall other Articles of their ill Conduct & dishonest management in that branch of your Affairs with which they were intrusted.

Mess's. Stephenson and Falconers answer dated 9th Novembor arrived us the 22nd November & was tendered to Mesers. Browne & Barker for their Perusall, we deferring the Consideration thereof being then preparing for the dispatches of Ship Prince Frederick after which the Councill being Summonsed the 5th Instant to Consider on this Affair Mesers. Browne & Barker requesting of our Governour that their examination might be deferr'd for a day or two that they might prepare what they had to offer in their own Defence it was accordingly deferred till this Instant. We being mett and Messrs. Samuell Browne and Hugh Barker appearing before us the Governour Acquainted them of the Severall Charges against them particularly the 5,000 Siocaes paid by them out of the Honble Companys Cash for their own private and immediate Service & so dishonestly charged to our Honble Masters to which Mr. Samuell Browne offered nothing in his own defence more than desiring our favour in Consideration of his Family, upon which the Governour read the Honble Companys Standing Rules and orders to him which are so possitive & direct in cases of this nature that it was not in his Power or any of this board to deviate from, whereupon Mr. Hugh Barker deliver'd in a paper which is annext to this Consultation endeavouring to mollifie his Case which we perusing find to Contain no Substantiall defence but rather evasive arguments to elude matter of fact, on which the Governour desired them to withdraw, when we Again perusing and maturely considering the Honble Companys orders in such like Cases, it is unanimously Agreed that they both be from this day dismissed from the Honble Companys Service, on which the Governour sent for them in and acquainted them thereof.

Mr. Hugh Barker delivered in a Petition which he had ready in his pockett insinuating Mr. Brownes being Cheif and sole director of the Cash &c. Affairs, but that is a meer evasion as fully appears by his having signed all the Cash &c. Accounts with Mr. Browne, his Petition is annext to this Consultation.

To

Messes. Samuell Browne Edward Stephenson & Thomas Palconer

Sma

We have before us your Letter of the 28rd Ultimo by which we observe you designe to make but one fleet, an early fleet would have been very serviceable for the early dispatch of our Honble Masters Ships so that the sconer your fleet comes the better.

We find you are like to fall very Short of the Companys Quantity of Petre this year if the troubles in the Country which you give for reason be genuin, we must be satisfied, but we hope no private trade in that Commodity has stood in Competition with the Companys, and we further expect a particular Account of every Salt Petre Assamy [ssāmī] what part each have delivered in of their Contracts and what remain behind with a particular account of their Characters and Creditt, & also when its Likely we shall have the remainder delivered.

Messers. Browne and Barker assured us last year the Nabob promised them the remittance of the exorbitant demands which had been usual, and that he shew'd them wonderfull favours which encouraged us to Condescend to the Extravagant Expense they putt the Honble Company to in resettling Patna Residency, it is something strange he should so soon forgett such a Contract he was so well paid for, in Short we Cannot bear such Impositions, but must and will withdraw the Settlement unless you can bring him to more reasonable terms & this you must tell him and Demonstrate to him that we are resolved not only to withdraw but that he must expect we will make reprisalls if he pretends to fleece us as he does the Dutch or others.

We have receiv'd a Letter dated the 24th Ultimo from Messy. Browne and Barker enclosing their Charges Generall and Cash Account for the months of July & August, in the latter of which to our great Surprise we find charged five Thousand Siccaes given to clear a black Banian [danyal] Bogoo [Raghu] Punditt [pappid] from Prison with a long Harrangue of the great trouble and affliction he had met with, but in Short had he been treated ten times worse or even to Death, we can see no reason the Company have to pay so dear for the clearance of any black fellow in the Country nor can we pass any such Account without much more Substantiall reasons than any we have had yet, certainly those Gentlemen forgett what they wrote us in their Letter of the 26th July last wherein they say he was select on for twenty Years Customs he had Chested the King off, it is most Certain he could never Cheat them on Account the Company because they never paid any Custom & Consequently they never ought to pay any sum for Clearing him from any such like demand.

We cannot conclude without telling you this appears to us a very clark Story & that we expect a very particular [account] of it dens fide from you.

Gentlemen—We are Your Loving Friends & Servants

SAMUELL FRAKE &co. COUNCILL.

FORT WILLIAM, 13th October, 1719.

(2) Mesere. Stephenson of Falconere Answer to foregoing Letter.

Dated 9th November, 1719.

To the Hon'de Samuell Feare Requ-Gov- of Fort William, & President for Affairs of the Hon'de United English East India Company & Councill in Bengall. Hon'de Sir and Sirs

Mr Stephenson wrote your Honour &c. from Futtua [Fatühā] the 26th Ultimo advising of his having dispatched the boats from Noadda [Nauwādā] with an Account of what goods laden on them Account the Honbie Company.

The 28th Ultimo we were favoured with your Hon &c. Letter of the 12 h to which we now humbly reply, by our former Letters Your Hon &c. were informed of the Neccessity we were under of dispatching the boats all together with an Account of the Impositions from the Government.

We observe what Messre. Browne & Barker wrote your Honour &c. of the wonderfull Civility the Nabob shew'd them with his promise of remitting the former demands here, We have enquired of our Vacquell [sakil] Roopshund [Rüpchand] who was employ'd to adjust the business with the Nabob about resettling this Factory, he says he transacted all that Affair by the means of one Deelparramsaw [Dilnarayan Saha] an Eminent Shroff [sarraf] & a great favourite of the Nabobs who undertook the Nabob should Comply with his premise, which was to excuse the Pishcash [peskkask]; for a yealy present in Rarietys as formerly; Upon the arrivall of Messrs. Browne & Barker at Futtua [Fatübi] they received Letters from said Declaarramsaw [Dilnarayan Saha] to the same Effect, however, when they came to Patna they thought fitt to take the management of the Affair out of his hands and wholly employd Sheak Golam. mound [Shokh Ghülim Muhammad] (a Creature of the Nabobs and only so Account of putting him in a way to oppress & fleece all in his Power) to which wrong step Roopehund [Rupchand] imputes in a Great measure the Extravagant Expense We have been at & that had our business Continued in the management of the former we should have been able to have adjusted it on much more reasonable termes.

Your Honour &c. having orderd us to send a particular account of the last Years Salt Potro Investment we here enclose an Account of what Sums advanced to the severall Assumys [account] what received from each of them and what beliance due from them, we have distinguished those

who remain Debtors under the Denominations of good & Doubtfull, the first we are not apprehensive the Company will [be] Loosers by the perhaps we may not receive all their ballance this Year; By the others particularly Doodoray [Dudha Rae], Julrray [Jalar Rae], Lookman [Lakshman], & Terrulponde [Taral Pandel, we believe our Hon'le Masters will be great Sufferers, & we cannot help observing to your Honour &co that they had Dadney [dadni] given them contrary to the advice of Peraun [Pran] and Severall of our most Substantiall Assamys [asamīs] which we think ought to have been Sufficient Caution not to trust them Shea Golammomud [Shekh Ghüläm Muḥammad] and Mier Ismael [Mir Ismā'il] are able to Comply with the Contracts but as it is to be questioned whither they will we have included them under this head, further in Case they are not inclinable to discharge their Ballances, we shall find it very Difficult if not impossible to compell them, By Meser's Browne and Barkers private Contracts with the Companys Assamys [asāmīs] our Honble Masters have not been nor shall be Sufferers which they would have been greatly had not your Honour &c. sent us hither for they both severall times demanded a proportion with the Company of what Salt Petro received according to their Teeps [fips] & very freely owned they would have done so had your Honr &cr continued in them the power, Nay Mr Barker went so far as to demand it in writing in the nature of a protest because we would not Consent to their having any till the Companys Teeps [fips] were fully Compleated.

According to Your Honour &co orders We have made a particular inquiry into the Cause of Rogoo Punditts [Raghū pandit's] imprisonment For whose release five Thousand Rupees was paid & charged by Messrs Browne & Barker to the Honble Companys Account. We have examined the man himself who declares that he was imprisoned for buying Ophium without the City contrary to the Nabobs express order, he further declares that he two or three times wrote to the Gentlemen that were here desiring them to excuse him from medling in any such affair, being apprehensive of the Consequence but they sent him repeated orders to buy and they would protect him so he was oblig'd to comply. They were frequently cautioned likewise by Peraun [Prau] Soot Deloll [Suti, dallal] & Sheak-Golom-momud [Shekh Ghulam Muhammad] (the last of whom had with their Consent given an obligation in their names that they should not buy) not to meddle therein for that there would trouble ensue but they neglected all advice, Rogoo Ponditt [Raghū paṇḍit] was seized and they obliged to pay the money for his release, since their departure our Chupra Mutsuddy Sumbonaut [metaşaddi Shambhunath] (Rogoo [Raghu] Ponditts [pandit's] son) has been seized and imprisoned on this same account 'they alledging that in the agreement for Rogoo [Raghū] Ponditts [pandit's] release there was 500 Rupees to be paid in hand and 2600 on the dispatch of our boats, for this 2000 rupees he is seized and We have used our utmost Endeavours to get his Liberty but they have proved ineffectual and we do not see he will be cleared till said Sum is paid. Not being here at that time we are entirely ignorant of what agreement was made. Golommomed [Ghulam Muhammad] who was employ'd at the Durbarr [darbar] in this affair declares 7000 rupees was agreed to be paid but Persun [Prin] says he never heard of more than five, whither the Gentlemen that were here were

acquainted with this we know not but by what we can learn Golom-momud [Ghulam Muhammad] and Roopchund [Rupchand] did agree to the payment of 7000 rupees at the Nabohs Durbar [darbar]. We are daily importuned by Rogoo [Raghū] Ponditt [pandit] to pay said sum for the release of his Son who Suffers for his obeying the orders of the Gentlemen that were here, we have told him we cant pay any Sum without your Honours orders with which he is obliged to be satisfied. We request your Honour &c' will be pleased to take this affair into Consideration & send us orders what we must do therein, As soon as we received the Companys Books from Mesars Browne & Barker We spoke to them concerning the 5000 rupees paid Account Rogoo [Raghū] Ponditt [pandit] and desired them to write said Sum back or we must advise your Honour &co thereof, they then excused it by saying the Nabob had made a demand for 2000 rupees for a Messmanny [mezbāni] & on Account of former Customs which reasons not being Satisfactory they at last pressed us to stay and make a thorough enquiry into the Affair before we wrote which we consented to, & had not your Honour &c order'd us to send you an Account of this Affair We should not have been so remiss in our Duty as to have Suffered such a Charge to pass without acquainting you thereof.

The Attrophy [agrafi] is a Duty taken by the Nabob from the Lunias [limids] who boil the Salt Petre from every ffactory so much money & Such a Quantity of Petre, this duty is generally farmed by some of the Inhabitants here but last Year (Contrary to former Custome) Mess". Browne and Barker agree[d] with Sheak Golom-momud [Shekh Ghulam Muhammad] to take a part thereof jointly with him. This they did on pretence of Securing our Assamys [asamis] from any Trouble from the Government. At the foot of the Account of Salt Petre deliver'd as signed by them (Copy whereof comes enclosed) they have mentiond for Attrophy [atrafi] la. per Md on 23259md. 21sr. 8ch. which amounts to Rupces 1453-11-6 which they expected we would charge in the Invoice & is the method they proposed the Company should be reimburst for what paid on that Account As it has never been a Custom for the Company to pay any such duty We could not consent to charging it in the Invoice nor that the Company should pay the loss sustained by their farming it, a particular Account of what raid on that Account with what receivd [by] your Honour &ca have here enclosed, This money Peraun [Pran] paid by their order but in their Accounts have not given him Creditt for it alledging it was taken for the Companys Account & they must pay it, Now we have truly stated the Case to your Honour &c. we request your orders to whose Account this money must be charged, by farming this Duty there was generally some gain but the troubles in the Country this year have occasioned the Contrary which makes us question whether it was not taken with an eye to their own advantage, besides it appears strange to us, that if it was at first designed for the Companys account the Sum advanced was not Charged to them, nor your Honour &c" advised thereof.

We herewith send an Account of our Expences in our way hither Likewise our Charges Generall and Cash Account for September with Invoice of goods

laden on the boats (who by Letters from Mr. Browne arrived Safe at Rajamall [Rājmahāl] the 1st of this month) by this time we hope the light boats have reached Calcutta with a Supply of Salt Petre.

One of our Ohupra Assamys [asāmīs] Hermudunsaw [Har Madan Sāha] makes] a Demand of 600 Rupees which sum was taken from him by the Government at the instigation of the Dutch whose Assamy [asāmī] he had been and left them, he was apprehensive of being brought into trouble and told Mr. Barker so who promised to protect him from any impositions upon which promise his demand is founded, we have hitherto evaded the payment the frequently pressed thereto by all our Assamys [asāmīs] who we are fearfull will not Consent to Contract with us till some Satisfaction is made. We shall avoid paying it if possible and if we find it absolutely necessary to pay something shall adjust it as reasonable as we can.

We have certain advises that Raja Jassein [Jaisimha] has visited the King so are in hopes these troubles will Soon be over. We hear likewise that Gyrat Cawn [Ghairat Khān] and Hydracooly Cawn [Haidar Qulī Khān] are both bound this way one tis reported is designed for this Suba Ship [sābah] and the other for Ellabass [Allahabad] in the room of Rajah Chivdaram [Chhabilah Rām] lately deceased, we are in hopes on the arrivall of a new Subah [sūbahdār], We shall be able to adjust our business in much more reasonable termes. Our Nabob is now out of the City and its said is gone to fight the Engenes [Ujainīs] however he has left a Deputy behind who fails not to oppress the City as much as if he were here himself.

Our present Vacquell [wakīl] Roopchund [Rūpchand] is very old and at present entirely depending on Golom-momud [Ghulām Muḥammad] who we have reason to think has done us many ill Offices, consequently he is unfitt to handle our business. We therefore request your Honour &c's permission to displace him and if you approve thereof we will entertain Mullmuckchund [Mulkchand] who was one of the Vacquels [eakīl] at Court with Mr. Surman who gave him a very good Character, unless in the mean time we can hear of a more proper Person.

At present we have not further to add than that we are with due respect.

(3) Hugh Barker's Reply to the Allegations against him.

To the Honble SAMUELL FEARE Esqr Govr of Fort William and President for Affairs of the Honble Company of Merchants of England trading to the East Indies &c Councill in Bengall.

This reply to some Allegations in a Letter dated the 9th November 1719 From Mesers. Edward Stephenson & Thot. Falconer In Patna is humbly directed & offerd to their Serious Consideration.

That the Civill reception and kind promises we had Nabob, was directly according to our Letterto the Honbie Governour & Councill, being the Nabobs publick declaration in the Adollutt ['adalat] before all the Kings officers & the Multitude, as to Dailarams [Dayalram's] or Golom-momuds [Ghulam Muhammad's] service to the Houble Company before our arrivall we could not tell which was the greatest or whether any at all, unless we judge by their fflattering Letters which are always big with Self interest. It might Reasonably be believed they were both concernd since their first Visit to us was together & ushered in by Roopchund [Rupchand] Vacquell [vakil] & Peraun [Pran] the Broker with whom they had been some days before, Both Peraun [Pran] the Broker and Roopchund [Rupchand] were of opinion that Golom mound [Ghulam Muhammad] was the Person of the greatest abilitys to Serve us, especially since the poor Circumstances of Dailaram [Dayalram] made it impracticable to link ourselves with him, This man is gomastah [gumāshtah] to Fuckeer Chund [Fakirchand] of Ponypunt [Panipat], having brought his Masters Factory in Patna to the state of Bankruppcy, In this pickle and only with the acquaintance of a Single Vivit he told Us "He heard we had brought a "quantity of treasure with us, which he desired we would deliver into his "ffactory & he would Creditt us for a Leek [lakh] of Rupees as occasion required "withall that we would trust him with 500 pieces Ordinary Broad Cloth. I had all imaginable reason to dread Such a Costly friendship, besides the further he served us, the deniall must become the more difficult, not jong after this accident Dailaram [Dayalram] was for misbcheaviour and insolvency displaced and another Gomastoe [gumushtah] arrived in his room, Wherefore his only employ at present is attending the Durbar [darbar], renting Jaggeers [jagirs] and being Security for the Jemidars [samindars], the lowest ebb that can attend a Merchant: Besides the Nabob who was his patron in ffelicity has lately had Chowkeys [chushis] upon him for his own Demands.

To the Gentlemens examination of the 5000 rupees paid to the Nabob, Account Rogoo [Raghū] Ponditt [paṇḍit]: I beg leave to make the following reply. The Nabob who is himself a man of prey and more inclined to oppress than

¹ Jai Singh Sawae does not appear to have come to Court; but on the 1st October O.S. the had, by the persuasion of REjah Ajit Singh, REhter, merched back from Fodah Bhim to Amber. Some ray that he received as much as twenty lakes of rupees from the Sayyade.

protect did for the Space of 4 Months from February demand 2000 Rupees for a Messmanny [mesbd mi] only for passing by the Chupra Ground it could not be called factory since the ffoundation was not long laid and no Englishman or Mutsuddy [mutagaddi] on the Spot, and altho the nature of these Messmannys [masbdnis] (or wellcomeing presents) never amount to 100rs. in rice goats &c. Yet was 2000rs. the Sum demanded, Add to all this The unfortunate Interregnum in the month of March by the dethroning of Furruckseer [Farrukhsiyar] & was followed by the setting up three Princes successively as such accidents put the whole Kingdom into Convulsions so the greatest irregularities and Abuses are to be fear'd for this reason I humbly conceive it was more our Interest to Court the Nabobs favour who without the times has a naturall falculty of injustice, under this umbrage I proceeded to the aurungs [aurangs] & brought in near 40000rs. of the Honble Companys goods esteemed much safer under the Suba [subahdar] than the Jemidars [samindars]. the latter not being troubled with the very shew of honesty, neither did the Nabob omitt tacking an Expense to his Civility, Frequently asking, "will you may me nothing for my protection? Compare the difference with the last Interregnum." And indeed he put the matter in Execution with the whole City before it came to our turn, There being neither Dutch, other Merchant or Shroph [sarraf] that had not upon some pretence or another been muleted from 5 to 15000 rupees. During this Series of abuses the Nabob at the instigation of the Durbar [darbar] Harpeys required us to give an obligation not to buy Ophium without the City and accordingly, sometimes confining and always pressing our Vacquel [vakil], Old Roopchund [Rupchand] finding me averse to the innovation, of his own head wrote an obligation which Scoty [Suti] Deloll [dallal] shewing Mr. Browne and me, before its delivery, Mr. Browne by my udvice tore it, forbidding any such presumption for the future, Here I believ'd it requisite maturely to reflect on these growing abuses & that instead of Clearing the old former pishcash [peshkash] promised by the Nabob, we were submitting to impositious never heard off, and which, altho that was not directly a branch of the Honbie Companys Trade, yet must speedily affect all other particulars When the Merchants Petre Hassamys [asamis] & Shopkeepers, would with the Expectation of Selling to us themselves bribe the Nabob not to Suffer us to buy Salt Petre Pa. goods &ca. without the City, & to render it the more plausible that this would enhance the Nabobs custom of Budrecca [badraqak],1 which he always receives from the Merchants but cannot from us who have the Protection of the King's Phirmaund [farman], From that time the Nabobs demands grew cool & upon only asking to bring in a small Quantity (more for musters than anything else) Golommomud [Ghulam Muhammad] the Nabobs minion Sooty Deloll [Suti dallel] & others told us & Porsun [Pran] we had the Nabobs permission, in the month of June the Budrecca Droga [bedraqak dEršeksk] Abdell Hossein ['Abdul Husain] seizd Rogoo [Raghū] Ponditt [panelit] upon his going from the Factory to his house in Futtua [Fatuha] From whence being carryed to Patna the first demand was

¹ Badragal, Persian, an escort.

for cheating the King of 50000 rupees Custom by acreening sundry Merchants trade and investments, next ensued a demand for his son Otmarame [Atmaram's] wifes being after a publick manner in adultery with Paran [Pran] the Broker, (Perann [Pran] being likewise look't after and not daring to stirr out of the Factory in the day for severall months) but as the offender Praun [Prin] the Broker was not procurable they descended to a demand Account buying Ophium, To which reply was made that if they could prove it upon him, the persons or goods produced, He was content to pay affine. But in truth he had not above three or four Mds and that not bought in a publick manner, but secretly by his own Servant in order to deliver in Afterwards at the markett price, From hence ensued ill usage to the person imprisoned, not suffering him to set or lay down restraining his Victualls tying up for the whip &c" all which continuing above a month & bringing the old Man to Deaths door, I say these reasons with the thought that the whole Cloth Investment was under his Charge in Futtua [Fatühā], the making up of which was at an entire Stop & that at this particular time of an interregnum we had no force to protect our ffactorys or selves; we were against my inclinations constrained to pay the money thereby preventing any violent hands being laid on our other Gomastoes [gumdshtah] & Servants who were investing the Honble Companys money at the aurungs [aurangs] or elce where, I now humbly offer; whether as I duely & honestly pay the Honble Companys Consulage A Branch of private trade always used by the English & never objected against in this manner, no more than our peice goods and Salt Petre may not plead some excuse for an unforscent Brror of this kind, Especially when it was the Opinion of the whole City, that such an Innovation would certainly make way for the rest above mention'd, Finally I humbly submitt my hard Case to this Hon'te board and am now ready from my own pockett to repay my proportion of the money to my Honb'e Masters which the Nabob unfortunately forced from me.

The Attrophy [atrafi] of which we advised the Hon'de Governour & Councill as an incident charge on the Salt Petre as per Letter dated March 27th is the Subahs [subahdār's] Custom on the Lunias [lūniās] & not rented from him for any known advantage but the protection of the Hassamys [asāmīs], Upon our arrivall we found the Dutch in possession of the Singia Pergunnahs [Singhiyā parganas], Vizt., Bessarah, Goa, Cusmer, Rutty, Guddason, Muckear, & the Chupra Purgunnaes Manjee & Cheron, it is the nature of the proprietor in this Affair to Exercise great Severity flinging down the ox loading off all the Luneas [lūniās] & first demanding the Attrophy [atrāfi] The amount of each particular mans Share being controverted & abundance of Difficultys Started: The Poor Luniahs [lūniās] are obliged to Sell them only which is the Chief thing intended, Upon our giving out Dadney [dādnī] for the new Year & not finding the Singia Ballagutch Hassamys [Singhiyā Būlagachh asāmīs] Sufficient to perform

an Investment of 30,000 mds. Salt Petre we were obliged to have recourse to Chuprah [Chapra], not without difficulty Severall Substantiall Hassamys [asZmis] who had since the withdrawing our former ffactory contracted with the Dutch they now left them. The Dutch who used to receive yearly about 45000 mds. from that place alone, observing our footing notwithstanding the Nabobs horsemen, Chubdars [chobdārs] & Duans [discān's] Dustick [dastak] procured by them to prevent itt mide now a further Essay & without any manner of reason by bribery prevail'd on Sheer Algun Cawn [Sher Afgan Khan] the Phowsdars [faujdar's] son to seize Subachund [Sobha Chand] the son of Hernunduneaw [Harnendan Saha] our top Assamy [asāmi], all the rest flying away & hiding themselves after some days Imprisonment and hard usage Upon the Dutch pleading their power of Attrophy [atrafi] (for ballance there was none) he was obliged to pay 600 Rupees to the Government for his release, This accident put all the rest of our Contractors in a pannick fear; the most responsible of which & largest Contractors begg'd we would take the Attrophy [afrafi] for their protection otherwise they would immediately return our Dadney [dadni] & look for it where they Could find it the Year expiring about December (or Poos according to the Moors) & the Dutch ready to renew their Sunod [sanad]. I believed it our Duty to strive for it, & redress such abuses, which they had just imposed on us, As the Dutch offered to take the whole 39 Attrophy Purgunna [atrafi pargana] the good with the bad, we were obliged for our Honble Masters Interest to secure them to ourselves, And accordingly they were taken for the Year at about 3200 in money and Salt Petre as per paticulars in the Sunnod [sanad], Yet to Consult frugality as well as an investiture of power, it was in conjuncture with Golommomud [Ghulam Muhammad] versed in affairs of that nature. the money hitherto advanced is 1'75 Rs. of which, both Petre & money has been gather'd in wherefore in the best & worst of times the difference cannot be a Loss or Gain of 40") it may be obseved the Gentlemen say the farming of this matter was an innovation, but I humbly appeal to this Hon' is board especially since the difference is so small whether it was not better to keep the Staff of protection in our own hands than let of hers have it and Charge the duty on all our goods. The sum advanced being in all 1705 ruples it was calculated at la. per md. on 27233inds 38sr. 8ch. Vis'. 1453rs. 11an. 6p. on 29359inds. 21sr. 8ch. Account the Honble Comp. & 252r. 2a. 6p. Account private trade on 4034mds. 17er. Now I humbly appeal whither Petre his ever been known to come out so cheap as 2r. 3a. & 2r. 4a. the former Books always Specifying from 2r. 8a to 2r. 12a. & Accidentally more As this Account is now stated according to the money advane'd the Nabob, so when the Cash & Petre is gathered in that Head will receive a Considerable Creditt. I am sorry the Gentlemen insinuates we took it to make an advantage to our selves; Seing I, for my part, had never any thought of it; but for the protection above mention'd.

As to the allegation that I after en indirect manner promised Hernunduneaw [Harnandan Sāha] to reimburse the 600 Rs. taken account his son by the Government, I solemnly protest never to have done any such thing, but on the Contrary told him, he must bear what was past as well as he could yet that I would endeavour at all proper measures for his Future protection, may when Hernundunsaw [Harnandan Sāha] started this thing to Mr. Stephenson during

my being at Patna, I did declare to Messra Browne, Stephenson, Falconer & Peraun [Prān] the Broker That I had never directly nor indirectly promised him a reimbursement, with which every one at that time seemd Convine'd and Hernundunsaw [Harnandan Saha] receded.

Mess¹³ Stephenson & Falconer observing Roopchund Vacqueel's [Rūpchand vakil's] entire reliance of Golommomud [Ghulām Muḥammed] as a reason to displace him does demonstrate that I did not take the Durbar [darbār] business from Dailaram [Dayālrām] without Roopchund & Praum [Rūpchand and Prān] the Brokers proposalls & approbations.

I now humbly offer that as I acted only in the Quality of Second to Mr Sam' Browne whose is the Executive part, I hope it may prove some alleviation to what alledged against me. Besides as Mr Browne was himself ignorant of both the language & Customs, & withell to the last degree ever Jealouse of me, He put an entire Confidence in Perauns [Prān's] Council & Management.

This being what I had humbly to offer to this Honble board, In hopes of their favourable Opinion, I am with all submission,

Hon' le Sir & Sirs,

Your mest obedient humb's Servant,

llugh Barker.

FORT WILLIAM, The 8th Dec. 1719.

(4) Hugh Barker's Petition.

To the Honble Samuell Frank Esqr Governour of Fort William & President for Affairs of the Honble Company of Merchants of England trading to the East Indies &c. Councill. In Bengall.

The humble Petition of Hugh Barker sheweth: that whereas the Hon'de Board have determined the five Thousand Rupees taken by the Suba [qubakdar] of Patna, had no immediate reference to the Hon'de Companys Affairs, He prays that any fault on his side may not deprive him of the Hon'de Companys Service he being willing notwithstanding Mr Browne was Cheif & sole director of the Carh & other Affairs (Hugh Barker being frequently Absent at the Outward Factorys) to pay his proportion of the money back, nay Even the whole sum upon Mr Sam'l Brownes insolvency and that the Affair being referr'd to the Candid & mercifull Determination of our Hon'de Masters may be his Severest Censure.

He also humbly offereth that for all debts &co which may be judged to appertain to his Account in Patna, by this Honble Board he is with the greatest Submission ready to discharge them on the first demand, And your Humble Petitioner shall ever pray

PORT WILLIAM, Dec 8th 1719. HUGH BARKER.

1371.-A NEW PRETENDER

This day received a Letter from Mr John Deane. &ca at Cossim

having nothing with them of Value but a Diamond ring which his
Brother went into the Buzar [bāzār] to sell was seized which he having
Notice off made his Escape and fled into the Dacan [Dakhin] Country
and so came round by Jaggrenaut [Jagannāth] into Bengall, so that
Jaffer Cawn [Ja' far Khān] has seized him and put him in Irons,
& Sent Severall Expresses to Court about him.

AGREED That they be sign'd & the Packett for England and Madrass made up, and

ORDERD That Mr Samuell Greenbill goe down to Coxes and deliver the Captain his dispatches.

¹ This pretender's story of the diamond ring seems founded on the circumstances under which Muhammad Karim, eldest son of Agimu-sh-ShEn, was captured at Lither in 1712. See Vol. II, Pt. 1, p. xxvi. The elder brother of Muhammad ShEh was slain at Lither on the 16th March 1712 O.S. at the same time as his father, Jahān ShEh. See p. xxvii of the same volume. There was no relation of Muhammad ShEh in Ågrah fort.

to Survey her & give in their Report in writing to us which they
did the 4th Instant.

Survey of Cossimbuzar Sloop.

To the Honbie SAMUELL FEARE Esqr &ca. Sirs of Councill.

We the under Subscribers having taken a thorough Survey of the Houble Companys Sloop Cossimbusor, finding Severall Places of her main Plank and Oakum in the Seams Very much decay'd most of her dead Wood Timbers and Orutches Rotton (not fitting to Nail the Plank to) so that we think it much properer for the Security of the Companys Effects & their Service in the River that all her Sheathen should some off, & the Bottom Rebuilt, this We judge to be much Cheaper to the Honble Company than patching of her up, dated at Fort William 4th of Aprill 1730.

John Jones
John Cassells
John Holman

Cossimbuzar Sloop to be rebuilt.

We having for Severall days considered and informed ourselves the best we could of what Condition She is in we find her upon further Search to be much worse than reported to us and by the Opinion of all Seafairing Men with us will be much Cheaper rebuilt than any ways patching up, when next year the old Work will become entirely Rotton & must then again be pull'd to Peices, Wherefore

AGREED That they now give her an entire new bottom, and that the Buxey [bakbeki] secure Timbers and the best Teak Planck procurable for that purpose.

We not having receiv'd any Orders or advice from our Honble Masters of this Indulgence given to any of their Servants but who reside at this Presidency.

Agreed That we acquaint Mr. Saunders that we can't receive any Sum of Sums of money into Cash and give Bills of Exchange without direct orders from the Honble Company on any other terms than Customary to all free Merchants which is at two Shillings and Six pence per Current Rupee of Bengall.

1442.-HUGLI SLANDERS THE ENGLISH TO JA'FAR KHAN.

The 19th Instant we received a Generall from Cossimbusar dated the

15th wherein Mr. John Deane &c. advise that
the Hughly Government had wrote the Nabob
that we were building Outworks & Casting up Trenches round our
Towns whereon our Vacqueel [sakil] was confined a whole night at the
Durbar [darbar] upon which he sent the Nabob an answer it was
a forge[d] peice of Villany of the Hughly Phowsdar [facility] &c.
Officers, however this false information has given them a handle
or pretence of quarrelling in hopes by their threatening or
offering to disturb us they may in the End extort a Sum of money
from us we not haveing for some Years past given any of the
Customary annual Presents to the Hughly [Hughy] Officers nor
rany Sum to Jaffercaune [Jaffar Khān] since Governour Feake

¹ The moon was new on June 2.

Settled that Factory & the Country in Effect still continuing as in an Interregnum for the King is not yet obey'd and the Kingdom in most parts in Rebellion, wherefore a very improper Season to purchase any Nabobs favour at the Expence of so large a Present as he expects or will accept off. The real Grounds of this Complaint is nothing more than a handsome open Road we were designing to make on the Southermost part of our bounds, On a direct Line so as to keep the Country open and Clear for Levelling of which we were obliged to make a small Ditch for the Earth which they out of disgust or ill nature have term'd an Intrenchment tho' nothing more than what a Horse may leap over, this being a Generall benefitt for the free Passage of the air thro' the whole Town would have been made at the Expence of our Merchants &co. Inhabitants, notwithstanding we have acquainted the Government with the truth of this affair and to prevent any room for Jealousie have forbore going on with our designe and taken off all our Workmen they still have represented the matter as a Fortification to the Nabob and now have Insolently orderd our Hugly Vacqueel [vakil] to write us to breake up what allready levelled and fill up the ditch or otherwise they'l send force to do it for us.

1443.-LETTER OF EXPLANATION SENT 10 THE NABOB.

Acreed we Immediately write the whole Affair to the Nabob and at the Same time again recollect him of the late abuse we suffered in our Hugly House by misrepresentation and that if the Government continued daily to molest and disgrace us we connot quietly suffer such abuses and that our Vacquell [vakil] go to the Durbar [darbār] at Hugly and give the Duhy [duhāi] in the Kings name and there publickly declare that we desire to live here as Merchants and quietly enjoy the priviledges granted us by his Majestys Royall Phirmaund [farmān] but if they were resolved to Affront & insult us we would not tamely bear it but defend ourselves and Oppose any Force they should send in an Hostile manner to approach our bounds, also

AGREED The Buxey [bakkshi] do with all Expidition build a Couple of slight Straw Bungelaes on the Southermost edge of our Bounds for the Conveniency of our Soldiers and their Arms during the rainy Season, In case we should be obliged to keep out Guards to

secure our Inhabitants which will likewise Shew the Government we are fixed in our Defence.

1447.-EXPLANATION TO THE NABOB.

In a Generall Letter from Cossimbuzar dated the 20th Inst.

Mr. Deane &co. advise us that Mahmud John

Forces & his great Favourite had sent to them to enquire the truth of
this alarum, the Hugly Government had so maliciously spread up
and down the country of our Intrenching ourselves round our Towns
on which they gave him a Letter of the Truth of this affair which he
has carried to the Nabob.

1448.-DISPOSAL OF BROAD CLOTH.

The Broadcloth sent to that Factory having been there ever since it was last settled, upon their examining the bales they find the Cloth much damaged with spotts and moth eaten, not being able to put any off as Dadney [dādni], they request their broaker might take it off their Hands, who has offerd to bring Goods in for the amount provided he may have it at the Calcutta price allowing the Difference off Batta [tatta] and Liberty to send it to Patna.

Considering the Gentlemen at Patna have wrote for two hundred bales which we designe to send them as soon as the Europe ships arrivo we judge it more our Honble Masters Interest that it be sent thither on their Accounts, least it being damaged might be anyways prejudiciall to the sale of the whole and that we put a Seperate mark on those Bales and advise them of the same.

AGREED We write Mr. Deane &c. this our Resolution and that he forthwith repack the bales and return them by the first good conveyance of boats that he dispatches towards us.

that the Commander was bound down here to refit his Ship and

qualifie her to receive a ladeing on board which they desire we would give her and dispatch her for England.

1454.—OPPOSITION TO THE BAHRAH SAYYADS.

The 8th Instant receiv'd a Letter from Messrs. Edward Stephon
Monday, son and Thomas Falconer at Patna dated the

25th Ultimo. They write the Chuckwars

[Chakwārs] continue very strong and desire that we will send a

strong party of Souldiers to convoy the boats, Nazamulmook

[Nizāmu-l-Mulk] one of the great Omrahs [umara] has gatherd

great forces in the Ducan [Dakhin] Country and has openly declared

against the Syuds [Sayyads] who (as they advise) have since

endeavour'd to pacific him with an offer of that Government, but

is much doubted whither he will accept thereof, the whole Kingdom

continues discontented with these two ministers and are resolv'd to

seek all means for their Destruction.

1455.-HINDRANCES AT CASSIMBAZAR.

Yesterday received a Generall from Mr. Deane &ca. at CossimMonday,
July 11th. have deliver'd the Letter to the Nabob as
was agreed to write him in Consultation of the 23rd Ulto. but that
the Government still continue very troublesome and that the
Putcherry Droga [daroghah] stops and hinders the Merchants from
bringing in their goods, which we suppose to arise from the representation the Hugly Phowsdar [faujdar] has given of our new road.

¹ Nigamu-l-Mulk, governor of Malwab, had invaded the Dakhin, crossing the Narbada by the Akbarpur ford, on the 27th April 1720 O.S.

a Putcherry is a word of obscure origin supposed to represent the Tamil parash-skeri, the quarter or outskirts of a town or village where parishs reside. Latterly in the Bengal Presidency the name was applied to the cottages in which the married soldiers were quartered. The Putcherry ddrogkak was a sort of town inspector.

1456.-TROUBLES AND ALARMS.

The 12th Instant receiv'd a Letter from Messrs. Edward Stephenson and Thomas Falconer at Patna, dated the 1st of this month confirming what mention'd in Consultation of the 11th Instant and as expected that Nazamulmulk [Nizāmu-l-Mulk] had refused the Phirmaund [farmān] and Scerpaw [sar.o-pā] sent him by the King for the Government of the Decan [Dakhin] Countrey, returning answer that it came from the Syeds [Sayyads] who kept the King prisoner from whom he hoped to deliver him and restore the Kingdom to its Former Freedom, and would then submitt to his Majesties Commands for which he now took up arms and is at the head of a very formidable army, and it is thought matters are grown to too great a height to be accommodated without bloodshed.

We find the alarum of our new road has reached them, we suppose by some ffreighted Merchants advices which seems to put them under some uneasie the groundless Apprehensions of meeting troubles in their affairs.

1157.—REBUKE TO THE CREDULITY AND TIMIDITY OF THE PATNA COUNCIL.

AGREED that we Immediately write to Patna and Severely Check them for their credulousness and shewing themselves terrifyed at any Rumour that flyes through the Country and that they might have been assured had there any thing happen'd here that could have molested their affairs, we should have given them our necessary orders and directions for their future management which they ought to have expected and waited for, and not Shew'd any timorousness before even their own Servants who betray them to the Officers of the Government, who are never wanting to embroil their affairs, and extort money if they Can by any means frighten them into a Complyance. They advise of one of the Honble Companys Petre Boats being oversett in a squall comeing from Minapere to Futua [Fatühā] in which was 60 bags and 43 were intirely lost.

They advise that the Putcherry' Droga [darōghah] having for sometime past stopt all boats and business by putting Peons on the Merchants they were at length obliged to give him Four Hundred Sicca Rupees on which the boats were cleared and Peons taken off and he has promised not to molest them this whole Season, but still the Mutsuddys [mataṣaddīis] and Durba [darbār] Officers continue very troublesome for want of their Customary presents.

1468.—BROKER TO SUMMON THE MERCHANTS.

The List of Investment for this Year being arriv'd by Ship

Cardigan and Mr. James Williamson Export
warehousekeeper having compared the Same with

what contracted for in the month of Aprill as per Consultation of the

Agreed That our Broker do immediately summons our Merchants to contract for what further order'd and that the additional List be drawn up and entred.

1469.- DEFEAT OF THE SAYYADS BY NIZAMU-L MULK.

Just now receiv'd advices from Pattna under date the 24th Ultoconfirming the news of Nazamulmoolek
August 2nd. [Nigāmu-l-mulk] defeating the Syeds [Sayyads]
forces in the Decan Countrey and dayly growing more powerfull.

I This must refer to the defeat of the Sayyads' general, Sayyad Dilawar 'Ali Khan, on the 8th June 1720 O.S. The battle was fought in the hilly country to the north-east of Burhampur. Dilawar 'Ali Khan, Rao Bhim Singh, Hada, of Bondi, and Rajah Gaj Singh, of Narwar, lest their lives. Tod in his Rajakthas, with his usual inaccuracy, tells us that the battle was fought in the broken ground along the Sind river in Malwah, some hundreds of miles from the true spot.

1170.—TWO HUNDRED EUROPEAN SOLDIERS REQUIRED TO GUARD THE WAY TO PATNA.

They advise the Chowckwars [Chakwars] are come to a great head and as there is no King obey'd, all Jemindars [zāmīndārs] &c. that can gather to-gather any force, plunder and rob where they can overpower wherefore they desire we wou'd encrease the party design'd to convoy our Honble Masters boats to and from them. As the Chowckwars [Chakwārs] during these times can at very little warning double their numbers, wherefore

ORDER'D that we send two hundred European Centinals under the command of Major Richard Hunt a Lieutenant and two Ensigns &con. Officers which will be thirty men more than sent last year and sufficient to guard the boats and resolv'd we dispatch them with all expedition considering the rains have fallen very heavy this Season and the Fresh very strong in the river.

1471.-DEATH OF MR. SAMUELL BROWNE.

This morning departed this Life Mr. Samuel Browne.

1472.—BROKER TO PROCURE 13000 MADRAS RUPEES AT INTEREST.

The Ballance now remaining in Cash being mostly in Chequeeens and we being in immediate want of rupees to advance the boats and Soldiers now on their departure for Patna.

Agreed that the Broker procure us thirteen thousand Madrass rupees at Interest to be paid again in the same specie, on the arrival of our first Ship from Fort St. George for the following reasons, First that we can put off the Chequeens as Dadney [dadni] to our Merchants for one anna each more than they will pass in any other payments. Secondly that we know by experience the Shroffs [sarrāfs] will always greatly impose on us in the price of Silver when they know we are necessitated to buy rupees for our expences, add to this the lateness of the Season and the want our Merchants are in for their Dadney [dadni] of which they have as yet receiv'a no more than ten pr. Cent on our first contract before the additional List now contracted for, and the Investment order'd this year very large if they are not now supply'd the

French who as reported have brought large Stocks of Bullion will undoubtedly gain the preferance at the Aurungs [aurangs], Wherefore

ORDER'D that ten Chests be sent to Patna and the remaining forty chests be given our Merchants which with what before advanced will be but 23. 10. 6 pr. ct. on the daducy [dādnī] goods contracted for this Season.

1473.-MERCHANTS ALLOWED INTEREST

Our Merchants are now very clamarous for their Arrears due to them which amounts to rupees 268898. 7. 3 and August 4th. is as follows.

15 65 TOHOWS.	
Remaining due to severall Merchants on making up their Accounts before the Dadney [dādnī] for the ensuing Investment; remaining due to sundry Merchants on the close of the books	
Dadney [dādai] advanc'd for the ensuing Investment charg'd to their Accots. in these books	154/527. 8
Deduct what due from severall Merchants that is what the sum paid them for Dadney $[d\bar{a}dni]$ was more than the Sum	291510. 3.6
then due to them Accof. goods deliver'd	22611 12. 3
Rupees	268898. 7.3

ORDER'D that the Broker acquaint them we are obliged to give out what now arriv'd for this years Dadney [dadni] and that on the arrivall of the next ship their Ballances shall be discharged or they allow'd Interest (they now give to the Shroffs [sarrafs] for money to go on with their merchandize) to commence from this day.

1476.—DESPATCHES RECEIVED BYTHE DUKE OF YORK.

The 5th Instant receiv'd advices of the Duke of York's arrival on which Mr. Thomas Braddyll was order'd down to Rogues River to bring up the Packquett who arriv'd this morning in Company with Captain Robert Hyde, the Pacquett being open'd contained the following Papers, Vizt. Companys Generall Letter to Bengall dated 3rd February 1719-20 etc. etc.

The Duke of York touching at Madrass brought us the Duke of Cambridge's & Derbey's Packquets.

1477.—STEPHENSON AND FALCONER TAKEN INTO COUNCIL.

This day being mett again to consider our Honble Masters Orders

Tuesday, August 9th: how they have appointed the Council of this
Board Mr. Samuel Browne who is order'd as Fifth being as per
Consultation of the eight December 1719 being dismiss'd the Honble
Companys Service for breach of Trust and since on the second Inst.
departed this life, And Mr. Michael Coatesworth being in our
Consultation of the ninth January last laid aside as not capacitated to
take the charge of any Post of Trust, We are unanamously of opinion
that we can by no means reinstate him here before our Honble
Masters are acquainted with our reasons for putting him by and he
by industry and constant application to business quallifye himself
better for the Honble Companys Service.

This occasions two Vacanceys at our Board and the Honble Court of Directors having not further objected against Messrs. Spencer and Eyre's than by ordering Messrs. Stephenson and Falconer now both at Patna to succeed before them.

AGREED that they are now taken in as Eight and Ninth at this Board, and that at the end of the month those Gentlemen prepare

as soon as possible to deliver up their present charge of Import Warehousekeeper and Jamindar [simindar] according to the Rule and Form now order'd in the seventy sixth paragraph of their Generall Letter per the Duke of York receiv'd yesterday.

1478.—SHIP CRAGGS TO BE SURVEYED.

Captain Thomas Blake having the 1st Inst. deliver'd in his request to have his Ship Cragge Friggott survey'd, which Thursday, August 11th. we defer'd till the arrivall of a Ship from Madrass in expectation the Gov. &c. of Fort St. George wou'd have remitted us copy of their protest that We might have seen their perticular reasons for so doing but by the Duke of York they write us they desire the Craggs may be sent there to joyn company with the Cardonnell who they design to dispatch the very beginning of Outober when at the time the Cragge left Madrass they desired us to give her a full loading directly for Europe tho' they sent us no part of her Cargoe either money or goods to enable us to provide one here, and 'twas the first of August when the Captain desired a Survey on her before our Fort William which we have till this day deferr'd for want of knowing the reasons those Gentlemen protested against her, And in the months of August, September and part of October the Current is so rappid in Bengall River that no Vessel of any burthen can fall down without eminent danger (which is well known to all Persons in India) for which reason no Pylott whatever will take charge of an Europe Ship unless by compultion which can be no ways approv'd of so apparently to hazard our Honble Masters Estates by such impracticable measures.

Order'd that Capt. John Jones Master of Attendance & Henry Cockrom Ship-Carpenter proceed on board Ship Crayge Frigott Capt. Thos. Blake Commdr. (now at anchor before this Fort) and survey her and examine her decks espetially her Gunn-decks & leak in her bows that she be well caulkt and tight and whether she be in every respect fitting to receive on board the Honble Companys Cargoe for Europe and that they deliver their report in writing.

Collett and Spencer were appointed to go and take a particular Account of every thing they found in her house but She being then ill and very much out of order desired they would deferr coming till She gained a botter state of health so that it became the thirtieth of said month before they were admitted when they took the following List which She declared was all She was possess'd of.

AGREED that every thing except her Wearing Apparrell be dispos'd of and the produce devided amongst her Creditors.

To Mrs. Catharine Browne,

Madam

We receiv'd under date the 10th Ulto your request to sequester and deliver up all You was possess'd of as Widdow of Mr. Samuel Browne deceas'd in order

¹ The battle with 'Alim 'Ali KbEn was fought on July 29, 1720 O.S., at a place between the villages of Kulhari and Pimpri Gauli, close to Ballipur town, in the Akoli district, Lat. 75°50′, Long. 20°40′. 'Alim 'Ali KhEn was not made a prisoner, but fell on the field of battle. 'Abdu-ş-Şamad KhEn, governor of LEhor, and Sarbuland KhEn, governor of KEbul, made no sign.

the same may be dispos'd of, and the produce divided amongst his Creditors, but your late Illness prevented those Gentlemen appointed to take an Account of Your Effects waiting on You before the COth Ulto and We find in all cases of Sequestration the Law directs that a particular account be taken of every individual thing or things as moveables or any necessarys whatever imediately on the decesse of the Person indebted which if deferr'd any time will render such sequestration as invalid of no force and therefore as Your deceas'd Husband Mr-Samuel Browne departed this life the 2d August and an account not taken till the 30th of said month we must be of opinion that the Law will not allow that to take place or be of any service as clearing You from future Demands.

We are, Madam,

and the Men in good order.

Ensign Gammon who was dispatch'd with a small Party had clear'd from Diddergung [Dīdārganj] Chowkey [chauki] fourteen Boats with the Honble Companys Dusticks [dastaks].

1498.—DECISION WITH REGARD TO THE DESCATCH SHIPS.

The President &c. Councill of Fort St. George having sent us down the Craggs Frigott under their Protest (so consequently an empty Ship) at that time requesting we would give her a full Ladeing for Europe the afterwards in their letter of the 20th July they desire she may be return'd to them by the 1st October and in their letter by the Mary of the 1sth August sent us a callculate of the Ships they design to dispatch for England where the Craggs is included but soon after in theirs of the 18th said month recomend the Duke of Cambridge for a Countrey Voyage as they expect the Hartford may arrive them.

On receipt of their last letter the Warehousekeeper was order'd to make an exact calculate of Tonage we should be able to dispatch for England according to the List of Investment Order'd by our Honble Masters and now contracted for which if [we] meet with no unforeseen disappointment we find will enable us to dispatch one of their Ships directly from the Bay and give them the assistance we promis'd in our last of four hundred Bales each Ship to be return'd them besides Kintlage, Wherefore

AGREED that we now write to the Gentlemen at Madrass to send us what money they can spare to reimburse us the Amount of one Ships Cargo, and prevent our running so deeply in Debt considering the small Stock the Company have alotted us this Season and the Interest of Bengall being 12 per Cent and at Fort St- George but 9 per Cent per Annum which difference of 3 per Cent is so much a greater Loss to our Hon. Masters.

1535. - REPORT OF THE STATE OF THE RIVER.

Our Pylots as well as the Dutch having all been down the River

to sound the new deeps and lay the Boies for
October 31st. the shipping going out this season find the
Channell which formerly run over to Coxes fill'd up insomuch that
there is not water enough for a Sloop nor could they find any other
Channell open'd by which to cross over to Coxes so that they have

been forced to lay the Boies for carrying all Ships out over the Braces, And the Dutch fleet for Batavia of eight sail are now gone out that way but forc'd to lighten some of their Ships which drew more than seventeen Dutch-feet.

Our Commanders acquainting us that all their Ships will draw much more water when laden We now sent for our head Pylotts to know what is the greatest depth of water they can with safety take charge of and carry them over the Braces which they all in generall declare to be 16 Foot English the utmost they dare venture upon and that the nearest place they can anchor in to lay with safety for takeing in the remainder of their Lading in Pipley road.

This will not only augment the Charges of loading them but delay a great deal of time in filling them at so great a distance wherefore

ORDER'D that John Cassells do immediately repair on board the Cardigan, and Hans Freeze on board Ship Mary and carry them into Pipley road, they both being laden to the draught of water required, The Craggs is above laden and on her way to Rogues river where She will be able to take in the greatest part of her Cargoe as not being so large a Ship & may stay till next Nips before she proceeds to Pipley.

1557 .- DESPATCH OF THE MARY.

1558.—PHILLIPS TO DISPATCH THE DUKE OF CAMBRIDGE AND THE DERBY.

All Papers being prepair'd for ye dispatch of Ships Duke of Cambridge and Derby

1559.-INTEREST PAID TO SEBBILA BOTT.

Sebbila Rott Mother to the Widdow of Richard Collins deceas'd

Thursday, having severall times acquainted us, her
December 15th. Daughter dyed the 15th July last, And
humbly requesting We wou'd pay her eight months and an half
Interest due to her on the three thousand rupees lodg'd in the
Hon. Companys Cash, at Interest for her use during her life, And
alledging she has left two Children on her hands,

AGREED the President pay her the Interest due to the time of her death and

ORDER'D that the Accomptant write off the principall Currt. London, And that We advise the Hon. Court of Directors thereof that they may pay the same to those whom of right it belongs unto.

1560.-ACCOUNT BETWEEN MESSRS, HALL AND THEOBALD ADJUSTED.

Mr. James Williamson Attorney for Mr. Thomas Theobald in Madrass, now sent in Accot. stated between Baid Theobald, and Mr. William Hall deceased by which there appears due from the latter the sum of sixteen hundred eighty one rupees, two annas nine pyce currt. which he desires may be paid him out of said Hall's Estate. The above Accot. at first sight appearing intricate, We have examin'd into it strictly, and find that at the time of the date of the Accot. Currasign'd by Hall, he was indebted to Mr. Theobald the sum of two thousand seven hundred twenty five rupees four annas, which money Messrs. Livesay & Boddam were empower'd to receive, but Hall not being in Cash, he gave them Bills for that sum on the following persons, Vizt. on Gov. Boone, which he concluded he would be able to discharge on the sale of 41 bolts of Canvas he

had sent him 1,316 2
On Mr. Francia at Suratt to whom he had sent
an adventure of China Ware ... 1,409 2

Rupees ... 2,725 4

This appears by an obligation he gave them at the same time that in case said Bills were not discharg'd, he would be accountable with Interest from the date of said obligation. Mr. Francias Bill was duly paid but as the money did not come to Mr. Theobald's hands till May following, Interest is charg'd on that Summ from the date of said obligation till that time. Governour Boones was not; which is evident from his letter to Hall relating to the Canvas, wherein he orders Mr. Williamson to pay him six hundred rupees upon that Accot. and for what shou'd be due to him more, he wou'd afterwards give orders for the payment; from hence it plainly appears that said Sum of sixteen hundred eighty one rupees, two annas, nine pyce is justly due from Hall's Estate to Mr. Theobald's, Wherefore

AGREED the President pay the same to Mr. James Williamson, And that We write to Governour Boone concerning the Ballance that may be due from him on Accot. of the Canvas Censign'd him by Hall.

1593.—SURVEY OF THE COMPANY'S SLOOPS.

Captain John Jones Master of Attendance and Henry Cockram

Monday,
March 20th.

Ship Carpenter having survey'd the Hon. Companys Sloops, & given in a report of what

repairs are necessary.

ORDER'D that the Buxey [bakhshi] have them repair'd accordingly.

To the Hon. SAMUEL FEARE Esq! &ca Councill

Hon. Sir & Sirs

We the under Subscribers have examin'd and overlooked the Hon. Comps. Sloops relating to the repairs they will want for their Outsett, and what other materiall alterations that will be necessary to be done to them.

The Charles Sloop to be rais'd forward on the Bows about thirteen Inches, which will make her much better for riding at anchor, also She must be grav'd, and some other small necessary work which will be wanted.

The Cossimbuzar Sloop having receiv'd some damage lying along side the Europe Ships, there must some part of her Whale be shifted, and a few top Timbers be put in her, She must be grav'd and some small other necessary work which will be wanted.

The George Sloop being very deep in the Wast it was something dangerous her shipping a great quantity of water, which might prove of Alconsequence; we believe it very proper to raise her Deck which will make her much fitter for the Sea, and for stowing more bales; her rudder Irons being much worn, so that they must be made new which is all the materiall matter that's to be done to her Hull; she will want a new boom the old one being sprung and not serviceable.

The London Sloop will want a new Mast, and about ten foot keel to be put in her, the fore part of the old Keel being very much shatter'd, so that there is no security for the Bolts; it will be necessary to strip off some part of her sheathing to shearch her hodding's ends, and between wind and water; Also she must be grav'd, and some other small necessary work which will be wanted.

We are

Hon. Sir and Sirs

Your most Obed! Hum. Serv!s.

JOHN JOHES

HENRY COCKBAM.

1618.—SURVEY OF THE GEORGE BRIGANTINE.

Captain John Jones and Henry Cockram having survey'd the

Monday,
April 17th.

George Brigantine according to Order of Consultation the 10th Inst. now gave in their report

of what repairs and alterations are necessary,

ORDER'D that She be repair'd accordingly, And that their report be enter'd after this Consultation.

To the Hon. SAMUEL FEARE Esqr. &co. Councill Hon. Sir & Sirs

According to your Orders We survey'd the George Brigantine and find that her hause holes are very high, so that the Windlace is placed accordingly, which makes it very tedious and dangerous when they are purchasing their Anchors, We judge the most properest way will be to raise the Forecastle and the forepart of her main deck.

She is very deep in the Waste, & it wou'd be very convenient to lay another Deck on her She will burthen more and have more rooms for the Cables Water &c. between Decks, where now She carries in the Hold which takes up a great part of it; This alteration will make her much better for the Sea; Her foremast is very rotten and the Bow-spritt is sprung they are not serviceable again, so that She must have new, also a Fore-Yard, Topmasts, and other things which will be necessary to be done. Dated in Fort William the 14th Aprill 1721.

We are

Hon. Sir and Sirs.

Your most obed! humble Servis.

JOHN JONES

HENRY COCERAM.

1623.-CHANGES IN COUNCIL.

The late Alterations in the Councill occasioning a removall of

Mr. John Eyre Jamidar [samindar] to the Places

Mr. John Eyre Jamidar [samindar] to the Places

of Buxey [bakhshi] and Storekeeper, and Mr.

John Stackhouse Storekeeper to the place of Jamidar [samindar],

which was deferr'd till the Ballancing of the Generall Books as
the most proper time,

Order'd that They now take charge of those Posts accordingly, And that Mr. John Eyre sign a receipt for the Ballance which he receives from the Buxey [baskhki] and Storekeeper.

1624.—THE PATNA NABOR STILL DELAYS HIS DEPARTURE.

The 6th Inst. recoiv'd a Generall Letter from Messrs. Edward

Menday,
May 8th.

Stephenson and Samuel Harwood at Patna
advising the Nabob has not yet left that place,
the has withdrawn his Forces from severall Parts of his
Government (some of which the Duan [divan] has taken charge of)
and made preparations as if he intended very shortly to march
away, but his so long delaying it gives suspicion of his design to
turn Rebell.

They have got about sixteen thousand Maunds of Salt-petre in the House, but are like to meet with some difficulty in procuring the peice Goods, because the Merchants in hopes of an opportunity of carrying Goods upwards under the Nabobs Protection when He goes to Court, buy all they can lay hands on;

The Tin sent up they have dispos'd of, but fear they shall be oblig'd to accept three rupees four annas for the red Broad Cloth, and three rupees eight annas for the green, at which price they are in hopes the Merchants will take it.

The Broad Cloth remaining upon their hands, they have been obliged to take up money at Interest which they chose to do, rather than draw Bills, Exchange of late running very high.

1625.-ARREST OF THE COMPANY'S BROKER BY THE NABOB AT CASSIMBAZAR.

The 8th Instant at night receiv'd a letter from Messrs. Edward

Wednesday,
May 10th.

Chisp &ca. at Cossembuzar dated the 5th May
advising of the Nabob having seiz'd Contoo

[Kantu] the Broker of that Factory, and carryed him to Muxodovad

[Maqsūdābūd] where he is close imprison'd; They further advise
they sent a Party to intercept them in the way, but that their

People cou'd not come up with them before they got to the Nabobs

Camp, So that the Party not being sufficient, return'd without
offering to resoue him, but that they design'd the next day to send
a letter to the Nabob, and

ORDER'D the Vacqueel [valit] to give the Kings Duhoy [duhat] in Publick Court, of which they premise to advise Us further.

1626 .- CAPTAIN DALLIBAR WITH 50 SOLDIERS ORDERED UP TO CASSIMBAZAR.

This being an insult that must be attended with the worst of

Consequences shou'd We tamely bear it, We
yesterday Order'd Our Vacqueel [enkil] at

Hughly to give the King's Duhoy [duhāi] and declare that if Our

Broker was not speedily releas'd We wou'd seck Our own satisfaction; And in order to put a good face upon the matter.

AGREED We Order Captain Henry Dallibar with an Ensign, four Serjeants and fifty European Soldiers up to Cossembuzar as a Reinforcement, but not to proceed till We receive the further advice expected from thence.

1627.-THE NABOR AT CASSIMBAZAR WANTS A PRESENT.

Last night came to hand a Generall letter from Mr. Orisp &co
Saturday, at Cossembuzar dated the 9th Inst. giving an

May 13th. Accord. of the Government's presentions for seizing

and confining Our Broker, by which it appears the sequell of the

matter is the Nabob is resolv'd to have a Nuzeranna [naz.dnah], but
this is such a method of Fleecing Us as We can no ways tamely

consent to, Wherefore

AGREED according to Order of last Consultation that Captain Henry Dallibar with his Party immediately proceed up to Cossembuzar Factory.

1628.—GOOD EFFECT OF A LETTER TO THE NABOR OF CUITACK

The 10th Inst. received a letter from Mr. Humfreys Cole at

Monday,
May 15th.

Ballasore, advising that a letter he wrote to the
Nabob of Cuttack had so good an effect as
that the Phousdar [fundar] had not molested him since.

1640.—THE NABOB AT CASSIMBAZAR HAS NOT YET RECEIVED THE GOVERNOR'S LETTER.

The 29th Ulto roceiv'd a Generall Letter from Mr. Edward Crisp &c* at Cossembuzar dated the 26th advising of Monday, June 5th. the receipt of Our letter of the 17th inclosing Gov. Feakes letter to the Nabob, which they had be n ever since endeavouring to get deliver'd. The Armij's parant they wrote the Nabob the day after Contoo [Kantū] was seiz'd they cou'd not get deliver'd 'till the 25th Assur Cawn [Asad Khan] brother to Mahmud John [Muhammad Jan] being in favour with the Nabob they had made Interest with him to get the Governours letter and the Arrujee ['arxi] deliver'd, who sent them by his Deputy, but the Nabob angrily refused them, tho' he has since receiv'd the Arrajec ['argi] from Assur Cawn [Asad Khān] and Order'd the letter to be brought when he was at leisure. On perusing the Arrujee ['arri] he sent for Futtichund Seat [Fathchand Seth] and Order'd him to enquire into the Story of the Broker's Wife hanging herself, who accordingly sent for Contoo [Kantu] to the Cossnoviss Catcherry [khās-navis kachahri], and as he had before promiss'd disputed in his favour. Assur Cawn [Asad Khān] had promis'd to deliver Gov. Feakes letter the next day, at which time if Contoo [Kantu] was not clear'd they intended to pitch their Tents opposite to the Nabob in order to get admittance and have the Broker set at liberty.

1641.-THE NABOB RELEASES THE BROKER IN A HANDSOME MANNER.

The 3rd Inst. receiv'd another letter from Mr. Orisp &c at Cossembuzar dated the 30th Ulto advising of Monday, June 5th. the releasment of the Broker in a handsome manner, the Nabob giving him a Seerpaw | sar-o-pa | of a Coat, Sash & Turban, which by every body is esteem'd as a very great favour. and they hope has put an end to severall complaints that they have for some time past been troubled with the Nabob himself enquiring into severall articles alledg'd against Contoo [Kantū], and particularly the report of his Wifes hanging her Self which not being prov'd he was acquitted in a very creditable manner, the Nabob bidding him tell his Masters, that the' he was a Servant to the English yet he was a Subject and Tennant of the Kings, and as there were such reports he cou'd not avoid examining into the truth of them, which he had thus long deferr'd, being very busic in dispatching the King's Treasure, and that now he might go to the Factory, and tell them to go on with their business as usuall.

1648.-THE NABOB GIVES AUDIENCE TO THE FRENCH.

Yesterday receiv'd a Generall Letter from Cossimbuzar dated the

Monday,
June 19th.

14th They advise that the Nabob (altho' he had
put off the French for some time, who had
petition'd for leave to vizit him) had appointed a day for them to come,
which therefore they cou'd not handsomely avoid, And accordingly
went on the 13th Inst and were conducted to the Nabobs private

1614 -- ABOUT GRANTING THE BETTER RATE OF EXCHANGE TO BOMBAY.

Yesterday arriv'd before this Place the Ship Fancey Captain James

Monday, June 26th.

By her We receiv'd two Generall Letters from

Bombay, which came to hand the 24th at Night, one dated 15th Aprill

1721 the other dated the 2d May, advising they have consigned the Ship Fancy to Us on the Hon. Companys Account and have laden on board her twelve hundred Bales of Pepper, Invoice and Bill of Lading for which came inclos'd, also a List of what they desire in return.

In their Letter of the 15th Aprill they request Gov^r Boone's Attorneys may be permitted to pay money into the Hon. Comp^a Cash here, and have Bills given accordingly at two Shillings and nine pence per rupee; They have enclos'd Copy of a Paragraph of the Hon. Company's Generall Letter to them dated 27th February 1718 wherein they are allow'd the Liberty for that year.

AGREED We deferr granting their Request, till the Arrivall of the Europe Ships, when we may expect Orders concerning it.

1645. - THE PATNA NABOB IS READY TO DEPART.

The 25th Inst receiv'd a Generall Letter from Pattna dated the Monday, June 26th. They advise they have certain news of Nuzerutt Jaar Cawn's [Nuṣrat Yār Khān] Naib being arriv'd Benerass [Bauāras], and that they expect him there in eight or ten days, the Bergell ware being delivered to their Nabobs People, and arriv'd as farr as Dogrepoire [Bhāgalpur], And the Nabob himself makeing ready to depart in two or three days. Esgur Cawn [Asghar Khān] Duan [diwān] is likewise turn'd out, And one Abdull [Abdul] Futtua who is arriv'd very near is appointed to succeed him, So that there will be a thorough revolution, which they hope will better the Government of that Province, And that affairs will be managed with less Charge and difficulty.

1646.-SALE OF GOODS AT PATNA.

The reason the Broad Cloth &ca. sticks a hand is the Nabob's Stay, and without a Convoy the Merchants are June 28th.

Stay of the reason the Proads these staid to venture Goods on the roads these

troublesome times, Some of the Ordinary Broad Cloth and Aurora they have put off and will dispose of the Rest as soon as they are offer'd at tollerable price.

The objections the Merchants make against the Tinn are, they say as it is a new Sort they dare not so readily venture upon it, least the Merchants at the Aurungs [aurangs] to whom they sell it, shou'd scruple to take it, or make a difference in the price; And that it is harder than the other, and requires more labour in working it.

They advise that the Chuckwars [Chakwars] are very Strong, and that they believe it will be proper rather to augment the Party of Soldiers, design'd up this Season, then diminish it;

Inclos'd they have sent Us a List of what quantity of Goods they judge may soll, and what proper for Presents, which they desire may be sent;

Captain John Jones and Henry Cockram having survey'd Ship

Monday, Fancy according to order of Consultation the
July 17th. 3rd Inst. now deliver'd in their report of what
repairs are necessary to be given her.

To the Hon. SAMUEL FEARE Esqr &c. Councill

Hon. Sir and Sirs

According to your Orders we have survey'd the Hon. Companys Ship Fancy Capt. James Macrae Commander and find her Sheathing is very much worm eaten, and all her Oakam rotten in the Seams of her main Plank; Severall of her Beams broke which has been in some measure secured, but it will be needfull to add some other Timber and Iron work to strengthen them.

We find also severall of her Futtock Timbers and two of the Riders broke, Some part of her false keell and a piece of the back of the rudder beat off, which we suppose was done when She struck the Ground.

We are of opinion it will be proper to strip the Sheathing off; Nail and Caulk her bottom, and new sheath her; Also She must have six pair of Standerds five or six breast hooks or Croutches; Her false keell & rudder mended; and new House peice.

When She has had this repair we judge She will be in a fitt condition to proceed on her Voyago with the Hon. Comps Goods. Dated Fort William July the 17th 1721

The Dutch and French have visited the Nabeb, and Mr. Stephenson has been very much pressed to do the like which his indisposition has hitherto prevented, but now being pretty well recover'd he will be obliged to do it in eight or ten days; after which they will order the Vackeell [cakil] to sound the Muttsuddies [mutaşaddie] as to what Terms their Durbar [darber] Affair may be adjusted. The Dutch have made up their business sometime ago, and have agreed to give upward of thirty thousand rupees, a good part of which they have already paid. The French have also made the Nabob a Considerable Present, but as yet no certain Sum for the yearly Pishcash [peshkash] is determined.

Guodfellow, containing—

Triplicate Companys Generall Letter to Bengall dated 14th September 1720 sent per Good Fellow, etc. etc.

1695,-NEWS OF AN OSTEND SHIP.

By the Ship Addison we have also receiv'd a generall Letter from

Bencoolen, dated the 14th August 1721, advising that in February last they recover'd that

Settlement without fighting, and had a good Agreement with the
Natives, and that they hope in a short time to be so well fortified as not
to stand in fear of any of the Country Enemies.

They also advise that about the 30th July last arriv'd there a Ship from Ostend, as they believe to settle there, the they pretend to be bound for China; The Capt. of her John Williams is a Fleming, but speaks English, the Cheif Mate Richard Cummins is an Irish-man born at Munster, the first Supra Cargoe a Fleming; the second William Tyler was born at London; They had the Emperours Pass-port for the Ship Flanders to trade to India, but the Ship was an English Ship named the Queen of Peace, and had made two voyages in the English Companys Service; wherefore they have detain'd the Ship and Cargoe, and the principall of the King of England's Subjects untill they receive Orders from the Hon. Company what to do farther therein.

1696.—REVERSE AT ANJENGO

By the Ship Shawallum we receiv'd a Generall letter from the Governour and Councill at Bombay dated the Tuesday, October 24th. 8th July importing that their last Advices from Anjengo brought them the melancholy Account of all the Hon. Companys Covenant Servants being cutt off on the 11th Aprill, when they had marched with the best part of their Troops to the number of one hundred and thirty as farr as Attinga to ratifye the late treaty, and pay the annuall Tribute to the Queen which was due for seven years past; Those remaining in the Fort, who were one Captain, one Lieutenant, one Ensign and about forty Soldiers, give assurance that they are resolv'd to defend the Hon. Companys Estate there to the utmost extremity; Wherefore, the Governour and Councill of Bombay request we will give directions to our early Shipping to touch there, and afford them what assistance they are able, there being no possibility of sending them any recruits from Bombay 'till the breaking up of the Monsoon. They also advise us that they have receiv'd informations of three Muscatt Ships going into Gombroon road with an intent to seize the Hon. Company's Brigantine and carry her into Muscatt, but our People seeing them stand into the Road, haul'd close in Shoar, and prevented the Arrabs attempting her, so that they return'd without firing a Shott; But 'tis reported they have orders to attack and carry to Muscatt the first English Ship they meet with: This misunderstanding they suppose arrises from an Engagement which happen'd by an Arrab Vessell attacking the Hon. Companys Brigantine in her passage to Persia, who after four hours fight was taken. & Our People kept her five weeks in possession, but for want of water were obliged to let her go.

1697.-LETTER FROM MADRAS BY THE MONMOUTH.

touch'd there the 20th August, they demanded Captain Westcotts
reasons for stopping there, being bound to Bengall, to which he return'd
answer in writing, that he only call'd there to get some intelligence
concerning the Pyrates in order to secure his passage the better to
the Bay; he left that place after two days stay.

They detain'd the Momouth so long in expectation of the arrivall of Ships Malbro' and Heathcott from England and Dartmouth from Benecolen, but being disappointed in all those Ships, they thought it not proper to detain her any longer, and therefore forwarded her without Delay, having laden on her a quantity of red-wood on the Hon. Harwood at Pattna dated 15th Septr. advising of the great Scarcity of Money occasioned by the Nabob's extortions, and that the Exchange to Agra being 6½ pr. Cent has encouraged the Shroffs [\$asra/s\$] to employ their Money that way, and not to let any out at Interest; but that they have prevaled with Kurruckseen and Kissenchund [Kishnchand] to let them have money at 4 pr. Cent Exchange, And had drawn two Bills on us accordingly, one for seven thousand rupees, payable to Mier Massook [Mir Ma'shūq], the other for three thousand rupees payable to Bengalinaut [Bangāli Nāth], which Sums they were under a necessity to take to pay for a quantity of Petre and Chint bought for ready money.

The two Chests of Treasure sent them they have been obliged to sell for 207rs. 4an. Sicca for 240 Sicca wt having kept it sometime in hopes of a better price, but Futtichund [Fath Chand] having the entire use of the Mint, no other Shroff [sarraf] dare buy an ounce of Silver, and he will give no more than the 'forementioned price; The Bullion came out very short in weight, occasion'd by weighing it with new Siccaes of the 3rd year of Mahmud Shaw [Muḥammad Shāh] which are just come out; the small parcell in Chest No. 332 mention'd 10 dwt. worse they were obliged to sell it

at 204 Siccaes for 250 Sicca w. The Government is at present very troublesome, and have stop'd severall boats at Azemgunge [A'samganj], Barragurrea, and other Chowkeys [chaukis] thereabouts; they have tryed all means possible for their clearance but to no effect; Atcharge [Acharya] the Putcherral Droga [daroghah] &c+ being so very extravagant in their Demands that they could by no means comply with them, wherefore, it growing late in the season, and they fluding little likelyhood of getting them clear'd, the Nabob not appearing in Publick as usuall nor no admittance to him, they agreed to send Capt. Borlase, a Sarjeant, Corporall, Drummer and twenty Soldiers to clear them, since which Captain Borlase advises that he had clear'd severall boats from Barragurres, and was proceeding to another Chowkey [chauki]; So that they are in hopes he will clear all that are at present stopt. 1712.—NAISH, CHIEF MATE OF THE STRETHAM, CASHIERED.

Captain George Westcott Commander of Ship Stretham making a Complaint of Mr. Naish his Cheif Mate's behaviour November 20th. in severall times refusing his Command, insulting him publickly aboard, and in the road of Madrass struck him; And since his arrivall in this river in presence of our Master [of] Attendance who went to survey the Ship, behaved himself in the like insolent manner, getting drunk, and refusing to take charge of the Ship upon the Commanders return; And he now being sent for before us, and offering nothing substantiall in his own defence, it appears to us that the Ship and the Hon. Companys Effects cannot be secure with such a refractory Officer on board, wherefore

AGREED he be turn'd out, and not permitted to take his passage to England on that Ship.

If the figures are correct, the total should be Rs. 4532-1-6.

1713.—THE SILK INVESTMENT AT CASSIMBAZAR.

This day came to hand a Generall Letter from Mr. Edward Crisp &c* at Cossimbuzar dated the 21th Inst. advising of the November 27th. receipt of our Letter to them of the 14th inclosing Invoice for the ten Chests of Duccatoons sent them, about the price of which they had another Dispute, Futtichund offering but 2rs. 7an. 3p. per ps. at which rate they were unwilling to lett them go, having always sold for 2rs. 7an. 6p. each, but were obliged at last to divide the Difference and sell 'em for 2rs. 7au. 41 p. pr. Duccatoon, for the Merchants will not take Bullion, Futtichund [Fath Chand] extorting it from them at a much less rate. They observe the additionall order for November bund Silk, the last years being all bought up, and this years not coming to perfection 'till the 20th December which will be so short a time that it will be impossible to get near the quantity Order'd, They will endeavour to get forty or fifty Bales to be in Ualcutta by the last of January. The sorting of the Silk is very tedious, and they are apprehensive they must send it unserted; As the Silk will be fresh, and the particular Orders they shall give about winding it off; They are in hopes it will be very good (The Dusuttys [dusa/is] and additionall orders for 36 Covits 1 Gurrahs [gdrhds] will be impossible to be comply'd with:) They have already sent all the Jamawars, Strip'd Taffatys and Romalls [samals], the remainder of their plain Taffatys and Gurrahs [garhas] are coming in. They have return'd what Goods were the least spotted or ordinary, so that they are apprehensive they shall come short in the Taffatys and Gurrahs [garhas]. The 21st Inst. Captain Borlase return'd, who acquaints them that he had clear'd between thirty and forty Boates from Azemgunge [A'samganj] and other Chowkeys [chaukis] thereabouts which had the Companys Dusticks [dastaks].

1722.-DISTURBANCES IN THE COUNTRY.

This day came to hand a Generall Letter from Messra. Edward Friday.

December 15th.

Stephenson &c* at Pattna dated y* 2nd Inst. advising that Major Hunt had wrote them concerning the Skirmish he had at Beerpore [Bīrpūr], in which some People were kill'd, and which they apprehend will occasion a Complaint to the Nabob, and be aggravated to the highest Degree, but that they will endeavour to make the Nabob sencible of the necessity our People were under of acting as they did. Their Nabob has according to his promise been very moderate with relation to y* Piscash [peshkash], they having prevail'd with him to accept of a secrett Bribe of four thousand rupees himself, and to agree to three thousand rupees for the Nabob Nusuratt Jarr Cawn [Nuṣrat Yār Khān], which last is paid publickly and will stand upon Record. To accomodate matters thus they were oblig'd to give the Nabob's Brother one thousand

rupees, and his Son with many other Mutsuddy's [mutaṣaddīs] more or less to stop their mouths, and prevent their divulging what was paid to Cawnzama Cawn [Khān Zamān Khān]. With their next they will send a particular Account of what has been paid to each of the Mutsuddys [mutaṣaddīs].

1723 .- DIFFICULTIES IN PROVIDING THE INVESTMENT.

The great scarcity of money in Pattna has made Exchange rice to 41 pr. Cent at which rate they have been December 15th. oblig'd to take up money, and are to pay 6 if the money be not paid when due, the Shroffs [sarrafs] complaning of their not getting their money in the limited time, and therefore would not part with a farthing but upon those terms, as the Season is pretty farr advanc'd they are in hourly expectation of the order of Investment; The Dutch have begun already to give out Dadney [dadni] for their Petre, and if they be not supply'd with money to do the like, they fear they shall lose some of their ablest Assamys [asamis]. The great scarcity of money occasions Trade to be very dull and makes them doubt the Broad Cloth will meet with neither a quick nor a good markett: Inclos'd they have sout Mr. Loyd's Account of way Charges up, the Ballance being three thousand three hundred ninety two rupees Sioca which he has paid into their Cash. one thousand of which they deliver'd Major Huut, and the remainder they paid the Soldiers for Dyett money, and to the Manjees [manjhus] of the Boats that the Hon. Company might be no looser by ye Batta, the five thousand Siccaes with batta [batta] amounting to five thousand six hundred twenty five rupees paid Mr. Loyd they have given Account Current Calloutta Credit for, and design to charge ye expences under the proper heads there. The Invoice for what sent down by the Fleet, amounting to two hundred thirty eight thousand two hundred fifty nine rupees, ten Annas, nine Pyce they have enclos'd. The piece Goods are they beleive cheaper than the last years, but the Petre is not so good as they beleive it wou'd have been, if the French had not gone up, for on their arrivall they bought all they cou'd lay hands on, and giving three rupees and a quarter pr. Maund tempted their and yo Dutch Assamye [asamis] to sell them under hand in other Peoples names, which obliged them to take worse from those they had contracted with, than otherwise they wou'd have done, and were they to remain, they beleive they shou'd hardly get any body to contract with them under, if at three rupees pr. Maund; They have a large boat there laden, with which they hear they will return as soon as they have adjusted the Durbar [darbar] Affair, and got the Nabob's Dustick [dastak].

1724.-HOPE OF BETTER THINGS IN THE NEW VIZIER.

They hear that Nazamullmullick [Nigāmu-l-Mulk] has march'd from Duccan [the Dakhin], and is now pretty near Dilly, And many are of opinion there will be a great change on the arrivall of that great Omrah [umarā], and that he will be made Visier. He is one, tho' a Tartar of a very good character, and 'tis beleiv'd if the management of the State is committed to him, he will reform what is amiss, and have all Orders from Court punctually regarded which have been much slighted.

1725.-THE DESPATCH OF THE MONMOUTH.

The 14th Inst. Mr. Thomas Phillips return'd, having dispatcht

Friday,

1726.—ARRIVAL OF CAPTAIN ROWE WITH SALT PETRE BOATS.

The 13th Inst. at night arriv'd here Captain Rowe with the Friday, December 15th. Salt petre boats from Pattna, which being Port were obliged to lay too on the other Side of the River, where toward morning the Tide falling away, one of the Petre boats with twelve hundred twenty five Bags of Salt petre grounded upon a Sunk tree, on which she stranded and filled so fast, that notwithstanding all the assistance of the Soldiers and Dandys [dandie], could save no more than two hundred seventy eight bags, all the rest being nine hundred forty seven bags were intirely wash'd out. We seiz'd the Manjee [manjhi] but upon strict enquiry cannot find this Loss has happen'd from any neglect or carelessness of his, but purely by misfortune of the Sunk Stump of a Tree which lay undiscover'd under water.

1727.-ARRIVAL OF COLE FROM BALASOR.

Last night arriv'd here the London Sloop in which came Mr.

Humfreys Cole who brought with him twenty

two Bales of Sannoes [sanahs] Account the

Hon. Company.

[By the Editor.]

I. GOVERNOR FEAKE AND HIS FAMILY.1

The Feake family is said to be an ancient one, and the name, I believe, is to be traced in the records of the old city companies. In the Surrey Visitation of 1623 there is mention of an Edward Feake at "Godestone," and in 1667 we can trace a Samuel Feake, who is probably the father of the Governor of Fort William. After his retirement to England, Samuel Feake purchased "Sheering Hall Farm," the New House Farm, and the Manor of Sheering Hall in County Essex, and in 1725 added a new front to the Old House, which was hereafter known as "Darrington House." It is related that the property had been purchased in 1723 by Robert Chester, one of the Directors of the bubble South Sea Company, and that, when the property was declared by Act of Parliament to be forfeited, Samuel Feake was enabled to purchase a house he had coveted since the days of his boyhood.

Feake's marriage with Ann Hampton of the Hamptons of Hampden has been mentioned in the Introduction. The marriage cannot be traced in either the register compiled by Archdeacon Hyde from the records preserved at the India Office, nor in Mrs. Penny's Marriages at Fort St. George, Madras. It may have taken place at Cossimbazar. Of Captain Thomas Newland, Ann Hampton's first husband, I can find no mention: nor can trace the burnal of his daughter, aged six, in Archdeacon Hyde's register. The births of Samuel Feake's children have been dealt with in the Introduction to the present work.

After his retirement, Samuel Feake became a member of the Court of Directors. His name occurs eighth on the list of the Directors who in 1752 appointed J. Z. Holwell, then in England, to "the post of Zemindar, and 12th in Council at Fort William."

The elder daughter, Ann Charlotte, at the age of 65, married her gardener John Cruse in 1783, but in her will she retained the name of

¹ Based on information kindly supplied by Miss L. M. Anstoy.

Feake. The family chronicler 1 records that of this romance, "very little love and a great deal of roguery would be shown in the course of that story if I gave it in detail." By her will Mrs. Cruse, or Mrs. Cruse Feake, left the half of the Darrington property that had come to her to the children of her husband, "should he marry a respectable person with not less than £3,000." The chronicler adds "he did marry in 1813 one Rebecca Smith, but it is very doubtful whether her fortune of £3,000 was not arranged by her relatives in a colourable manner." Two daughters were born to Mr. John Cruse by this second marriage, and, although the name Feake was adopted as a prenomen by their respective husbands, nothing prospered. Feake Martin died insolvent in 1877, and George Feake Pavit, after some grandeur at the Hall, "was obliged to give it up and go out as a bailiff."

The other moiety of the Essex property had passed to Mary, the youngest daughter of the Gozernor. She died on 14th April 1803, and her estate, in which she hed intended her sister (deceased in 1800) to have a life interest, passed one half to a Mrs. Hollingberry for her life and then to her daughter Mrs. Glyn, and the other half to Colonel Glyn for his life and afterwards to Mrs. Glyn.

The inscription on the monument to Samuel Feake and his wife in Henham Church runs as follows:—

Sacred to the Memory of
SAMUEL FEAKE, Esq.,
formerly President and Governor of
Fort William, Calcutta, Bengal,
in the East Indies,
and late Chairman of the
Honorable East India Company,
descended from the ancient family of

FEAKE

in the County of Surrey.

He was Lord of the Manor and also the Manor of

Chickney Rectory of Pledgeden Commons,
Sheering and Harlow, all in this County.

He was endowed with all the Graces that adorn the

1C W F. Glyn, Esq.

His impartial deportment to all mankind and instructive conversation and address gained the esteem of all that knew him. He married Anne, Daughter and Heir of John Hampton of Hampden, of Fort St. George, Madras, (Relict of Captain Thomas Newland, by whom she had one daughter, Anne, who died in India, aged 6 years).

She died on board the Devonshire East Indiaman on her passage to England, 10th May 1723, aged 34, about seven leagues north latitude.

He died in London, 16th June 1757, aged 75, and was buried in a vault near this marble.

Having had issue by his said wife,
5 sons and 2 daughters, viz.:
1st, Samuel Feake, of Darrington House in
the Parish of Sheering, Esquire,
who died unmarried 30th October 1774, aged 63,
and was buried with his father.
2nd, Thomas Feake, died in India, aged 6 months.

3rd, Thomas Feake, Esq., Chief of Dacca, in the East Indies, 7th October 1751.

4th, Charles Feake, M.D., Physician to Guys Hospital, London, died unmarried 2nd August 1762, buried with his father.

5th, Nathaniel Feake, died in India, aged about 6 years.

Anne Charlotte (wife of Jonathan Cruse of Darrington House, Esquire), and Mary Feake, are the only surviving issue of the above Governor Feake.

Anne Charlotte Cruse, as a testimony of duty and affection for her parents, erected this Monument to their Memory, MDCCXC.

The monument to Samuel Feake is on the north wall of the chancel outside the altar rails. Above the inscription there is a modelled swan

and white ship with the motto *Dieu est la Supreme*. Above are three hatchments. On the south wall, a monument commemorates Mary Feake:—

Sacred

to the Memory of MARY FEAKE,

Daughter and Co-heiress of Samuel Feake, Esquire,

President and Governor of

Fort William, Calcutta, Bengal.

She died April 14th, 1803, aged 82 years, and was buried in the family vault.

This Tablet is erected by

Henrietta Elizabeth Sackville Glyn,
Relict of Colonel Thomas Glyn,
as a sincere testimony
of her gratitude and esteem.

The tomb of Thomas Feake is to be found in the picturesque graveyard at Dacca. It bears the inscription:—

> Here lies the body of THOMAS FEAKE, late Chief of Dacca, Obit 7th October 1750, Æt., 32.

There are tablets to the memory of John and Mary Feake (1748) in the pavement of the old Portuguese Church in the neighbourhood of Dacca. It may be conjectured that these two persons were children of Thomas Feake, Chief of Dacca. In certain District Records, I cannot at present trace, I find a Collector of either Dinajpur or Rangpur, about the year 1784, contributing to the support of an indigent person of the name of Feake.

Samuel Harwood, mentioned in this volume, died in 1722, and left the whole of his estate to Thomas, second son of Governor Feake. Charles Hampton, whom we find at Cossimbazar with Feake in 1717, arrived as a writer in the Company's Service in 1709, and was probably a near relation of Mrs. Feake.

II. SHORT BIOGRAPHICAL NOTES.

BARNAVILL, CAPTAIN ANTHONY. Colonel Davidson Love tells us that Antony Coyle de Barnaval, of Irish descent, was in 1715 Captain of the ship *Colloway*, trading between Madras and Manila. He married Antonia de Carvallo.

CAVE, CAPTAIN HENRY, Master of Attendance in 1724. Burial Register, June 8th, 1727. Court to Bengal, 21st February 1729: "We take notice by your 129th paragraph of the death of Captain Henry Cave, your former Gunner and Master of Attendance, and that you have appointed Captain Thomas Snow to succeed to him. We are glad to hear the good character you give him, and therefore confirm your choice. We are sorry to hear the bad circumstances Captain Cave died in, and are surprised to hear his debts amount to so considerable a sum as upwards of one hundred thousand rupees." The Captain married on June 19th, 1723, Mrs. Elizabeth Fagnal, who on 18th November 1736, married William Archdeacon, and on 26th January 1739, Jonathan Ranson.

COLLET, JOSEPH. In 1711 Joseph Collet had been appointed Deputy Governor of Fort Marlborough (Be coolen). He was transferred to Madras as 2nd of Council in August 1716. On 18th January 1720 he made over charge to Francis Hastings, and sailed for England on the King William, Captain James Winter. See Davidson Love: Vestiges of Old Madras, Vol. II, p. 152, et seq.

EYRE, JOHN. Eyre died on the 20th April 1722 and John Stackhouse succeeded him as Bakhshi. His first marriage, 31st March 1715, was to a widow Mrs. Fhiladelphia Fleetwood, who died at Ballasor and was buried on the 3rd November 1715. For the Fleetwood family consult Davidson Love's Vestiges of Old Madras. On February 10th, 1721, Eyre married Martha Rainbow, perhaps a daughter of the Senior Pilot, John Rainbow, who was buried 22nd December 1722. The second Mrs. Eyre was buried on 17th March 1728.

FALCONER, THOMAS, was born in Scotland on the 23rd March 1698. His father was John Falconer, "of the family of Falconer of Phesdo,"

¹ Entrusted with the private cypher of James II, in whose service he died at St. Germain on Laye, 1690.

who, by his marriage (at Edinburgh, 14th February 1681) with Mary, daughter of John Dalmahoy (second son of Sir John Dalmahoy) had four sons—(1) John, died young; (2) James (Lieutenant R. N.); (3) Thomas, the subject of this note, and (4) William, Recorder of Chester. Mrs. Falconer having left her husband, on account of a difference of religion, brought her three sons (James, Thomas, and William) to Chester, where she had relatives. Her mother was Rachael, daughter of Thomas Wilbraham, Esq., of Nantwich, County Cheshire.

On December 8th, 1708, when only in his eleventh year, Thomas Fakoner was appointed² a writer in the East India Company, and his securities were Ralph and Stephen Wilbraham, of Dorfold, Cheshire.

He arrived at Fort William in January 1710, and was stationed in the Secretary's office,³ at a salary of £5 per annum.⁴ A report concerning the factors and writers of the Company sent to the Court of Directors (December 1712) says "can complain of none for ill-behaviour or immorality: all behaved well; witness three persons: Crisp, Stevenson, and Falconer." 5

In the present volume, Falconer appears as Junior Merchant in 1719. On 25th June he is appointed 2nd at Patna, under Edward Edward Stephenson, who seems to have arrived in Bengal nearly two months after Falconer, but counted as his senior, and on the 2nd February 1714 had been, by order of the Court, advanced one whole year in the service. In August 1720, Stephenson and Falconer, both at that time at Patna, obtained rapid promotion, for William Spencer (arrived 1699) and John Eyre (arrived 1701) had been "objected against" by the Court of Directors; Samuel Brown dismissed, and Cotesworth declared incompetent by the Governor and Council. Consequently Falconer, at the age of twenty-three, became 9th of Council. In December 1720 he becomes Bakhshi. In 1722 he is Export Warehousekeeper. In that year Henry Frankland and John Surman returned to Bengal as 3rd and 4th in Council, and in August we find a "general exchange of offices":—

Mr. John Deane, Accountant.

Mr. Henry Frankland, Export Warehousekeeper.

Mr. John Surman, Import Warehousekeeper.

Mr. Thomas Falconer, Buxey (bakhshi) and Storehouse-keeper.

Mr. John Stackhouse, Jemindar (Zamindar).

Mr. Michael Cotesworth, Secretary.

In the year 1725-26 Falconer was Church Warden of St. Anne's. He returned to England in 1729, and died in the year following at Warwick Court, Holborn. The arms of his family ("a hawk's head issuing out of a man's heart proper, between three mullets azure") are said to be still faintly visible on his tomb. The inscription on his tomb in the new burial ground of St. George's, Brunswick Square, ran as follows:—

"In this vault lies the body of Thomas Falconer. Esq., descended from an ancient and honourable family of the same name in Scotland, who after having been employed 18 years by the Honourable East India Company at Bengal, returned to England in 1729 with the just reward of his extensive skill and honest industry in commerce; and established a good name and a very ample fortune, with that rare facility (sic) and largeness of mind that knew the pleasure of possessing only from the power it gave him of dispensing, of being generous to his acquaintances, grateful to his friends, and charitable to the poor; with the same sound Church of England principles in religion that he took with him from home, and in which he died on the 25th of January 1729, in the 35th year of his age. To the memory of her much beloved son, his mother erected this monument."

In his will, dated 21st January 1729, Falconer left £10,000 to his mother, £6,000 (at 2 shillings and 6 pence per rupee) to the Honourable United Company of Merchants trading to the East Indies, £500 to his god-daughter, Mary Feake, daughter of Samuel Feake, £2,000 in charity to the poor, £250 for the benefit of his servant Antelope, "whom I brought from India," and who is to be brought up in the Christian Faith.

The will is printed in Bengal, Past and Present, Vol. V, p. 49, and also the undertaker's bill amounting to £141-14-11. Some of the items in the latter are curious, e.g., the sixty-four men who carried "wax branch" lights in the funeral procession.

GREENSLATE, CAPTAIN. On 8th July 1724, Samuel Greenslate married Amie Tullie at Fort St. George.

GYFFORD, WILLIAM. The story of the massacre at Anjengo in 1721 is told by Colonel Davidson Love (Vestiges of Old Madras, Vol. II, p. 214) "Gyfford, who probably belonged to the family which had given Madras a Governor in the preceding century, set out on the 11th April, with his factors and the greater part of the garrison, for Attingah to make the usual presents to the queen. The party was treacherously attacked by the natives. Gyfford himself was murdered in a most barbarous manner and only a few sorely wounded survivors crawled back to tell the tale. Gunner Ince, though not the senior officer, assumed command of the remnant of the garrison, sent Mrs. Gyfford and the other women on board a country vessel, and, with the aid of reinforcements from Callicut. bravely sustained a siege which was not raised till the following October. Mrs. Katharine Gyfford, who, though only twenty-six years of age, had already experienced the tender mercies of Angria and had been three times a widow, was held responsible for her late husband's debts to the Company. She proceeded to Bengal 'to live with her relations,' and there met Commodore Matthews, to whom she appealed for protection against the claims of the Bombay Government. Matthews carried her to Bombay in the Lyon, and afterwards to England, when cross suits were filed between her and the Company. At a later date Mrs. Gyfford returned to Madras, where she died in 1745." Colonel Davidson Love tells us that the lady was a daughter of Captain Gerrard Cooke, Gunner of Fort William, and had come out to India when 14 years old with her parents. See Biddulph: The Pirates of Malabar and an Englishwoman in India (1907). Some papers connected with Matthews and Mrs. Gyfford appear in the fragment of Dr. Wilson's fourth volume of the Annals. She was a sister of Thomas Cooke.

HALL, NALHANIEL. His tomb is to be found in the Dacca burial-ground. The inscription runs:—

NATHANIEL HALL, Factor in the service of ye Hon'ble E. E. I. Compa-Obit, 13th Sept. 1725, Æt. 24.

JONES, CAPTAIN JOHN. On 20th January 1719, Bengal writes to the Court (Letters Received, Vol. X): "Captain Henry Harnett,

who was Head Gunner of this Fort, and Master of Attendance, departing this life the 30th November, that place being vacant, and Captain John Jones who has been Commander of several good ships for these many years in India, always having behaved himself to the satisfaction of his employers, offering his service, we took it into consideration, and the 30th December agreed he should succeed in that post being as fit a man as we think can be met with, and we hope his behaviour will be such as your Honours may approve of our choice." Mrs. Penny (Marriages at Fort St. George, Madras, p. 16) shows the marriage on October 23rd, 1710, of "John Jones and Margery Crook." Her tombstone is one of those which have been embedded in the steps of the Charnock Mausoleum. The inscription runs:—

Here lyeth interred the body of
MARGERY JONES,
Daughter of Mr. George Croke, Merchant,
formerly of Council in this place.
She was marry'd in Fort St. George, to
Captain John Jones, the 23rd of October, Anno 1711
who afterward being appointed
Master Attendant for this settlement.
She died here the 25th April 1723,
Aged 30 Years, 1 Day.

In 1689, at the time when the English had been driven from Bengal, Vizagapatam was seized by the Mughal Forces, and the Chief and John Staples, Messrs. Hall and Croke were killed. The lady was perhaps the daughter of the Mr. Crooke killed at Vizagapatam. Mrs. Penny (p. 6) identifies the George Crooke who married Lucy Field on 25th September 1689 with George Croke, and says that his son was Edward Crook, whose daughter, the famous Begum Johnson, is so famous in Calcutta history. On Mrs. Johnson's tomb it is stated that "Edward Crook" was "Governor of Fort St. David." A list of Madras servants of 1754 shows that he was in that year aged 62. On September 6th, 1748, the burial is recorded of Miss Grace Crook of Fort St. David.

OADHAM, MR. A civil servant of the name of Catesbey Oadham appears in Colonel Davidson Love's Vestiges of Old Madras, where it is stated (Vol. II, p. 187) he "came out as Assay Master in 1715, married Mary English in 1717, and was subsequently appointed Sea Customer He died in 1723, and his tombstone is by St. Mary's Church."

SA'ADTULLAH KHAN confirmed as Nawab of the Carnatic in 1713. The Surman Mission had succeeded in obtaining from the Emperor Furrukhsīyar the request of the Madras Council for certain villages, the possession of which had been resumed by the Nawab's Government in 1711. Sa'ādutullah demanded that the farmān should be produced for his inspection, but Governor Collet, rather than let the document pass out of his hands, determined to capture the villages by force, which was done in September 1717. Sa'ādutullah Khān died in 1732.

Westcott, Captain George. Colonel Davidson Love (Op. Ci., Vol. II, p. 323), shows that the Captain was the father of Foss Westcott, who joined the Madras Civil Service in 1740, and was one of the Commissioners in 1749, received Madras back from the French. George, a son of Foss by his wife (née Ann Pye), was Senior Member of the Madras Board of Revenue and died at Madras in 1809 at the age of 61. A son of the last, also George, was in 1807 a Captain in the 67th Regiment at Trichinopoly. Brooke Foss Westcott, the distinguished theologian, and Bishop of Durham, is a descendant of Captain George Westcott, and the family is at the present day represented in India by the Bishops of Lucknow and Chota Nagpur, sons of Bishop B. F. Westcott of Durham.

Charles Robert Wilson (1863-1904). historian of British India, was born in London and educated at the City London School. Having gained Scholarship, Carpenter he Wadham College, Oxford and graduated B.A. in 1887. Soon after, he joined the Indian Educational Service and served as Professor at Dacca College and later at Presidency College, Calcutta. Thereafter he was Principal of Bankipur College. Patna and Inspector of Schools.

In 1900, he was appointed Officer-in-charge of the records of the Government of India. He became a devoted student of early history of English in Bengal, laborlously unearthing manuscripts and piecing together an authentic history based on original records. This work won him recognition; he was granted Doctorate of literature at Oxford in 1902. Still in the midst of his researches he died after a short Illness at the early age of forty one.

Despite his official duties, Wilson's literary output was considerable. His publications include several articles in the Journal of the Asiatic Society of Bengal, dealing mainly with the tragedy of the Black Hole, and two works: List of Inscriptions on Tombs or Monuments in Bengal, and Old Fort William in Bengal, In the Indian Records Series. But perhaps his most renowned work was the Early Annals of the English in Bengal, published in 3 volumes of four parts (V. I, V. II Pt. 1, V. II Pt. 2, V. III) two of them posthumously.
